## **Students Feedback**

for the of

## **Session 2017-18**

**ACADEMIC SESSION: 2017-18**

**Department: Chemistry**

**Feedback Received:** Most of the chemistry students were satisfied with the overall teaching and interaction style of the teachers, presentation, perceived subject expertise, accessibility of teachers, motivating and participatory class environment. However, as per their suggestion, a modest improvement in overall voice-tone of teaching with required modulation and appropriate the speed of delivery, in maintaining regularity and punctuality, and in making the classes more stimulating may enhance the quality of teaching-learning.

**Measures Taken By Department:**

The feedback of students was shared with all faculty members and they were asked to make the class more stimulating to improve the quality of teaching learning as suggested by students. Faculty members were suggested to improve speed of delivery.

ACADEMIC SESSION: 2017-18

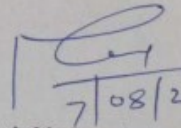

Department: Electronics & Communication Engineering

**Feedback Received:** The qualitative feedback from the students of the ECE department indicated overall satisfaction with the teaching-learning experience. Most students reported positive aspects such as clear audibility of the teacher's voice, appropriate speed of delivery, and engaging lessons. However, there are areas where the department can make improvements. Enhancing the accessibility of teachers and ensuring regularity of classes are important aspects that need attention. Additionally, making lessons more stimulating through improved presentations and increased question-answering in class can contribute to a better learning experience. Implementing these measures has the potential to enhance the perception of subject expertise among the students.

**Measures Taken By Department:**

As per the suggestions the department created mentor-mapping and the meetings are conducted in regular basis to address the issued of the students. The teachers were advised to inform fixed accessible timing to their students for better communication to resolve the problems. The teachers were also requested to make presentations, use videos, quizzes to make their classes more engaging and interesting as per the suggestions.

ACADEMIC SESSION: 2017-18

Department: English

**Feedback Received:** A large number of students gave their feedback on the qualitative aspects of the teachers. Most of the students think that the teachers of English departments teach very well, explain concepts, make students curious about topics, and guide, help and motivate students every step of the way. Students also felt that teachers were accessible to them and also, motivate students to participate in classroom discussions. Few suggestions came improvement in the voice quality, making the lectures more thought provoking and stimulating. Few steps towards regularizing classes more would also help to create a better teaching-learning experience.

**Measures Taken By Department:**

Teachers have been instructed to explain concepts in language that is simple and clear, with pronunciations, intonation, and voice modulation which can bring further improvement in voice quality and in resulting improved comprehension for students.

The teachers were also advised in optimum use of critical resources so that students get deeper knowledge. Also, classes must be made more interactive and more assignments be given so that students are able to develop critical thinking skills. Teachers were told not to miss any classes and if absent on any account, to make alternative arrangement for engaging the classes or to give students assignments for the period of absence.

**ACADEMIC SESSION: 2017-18**

**Department: Computer Science and Information Technology**

**Feedback Received:** The students of CSIT department responded in terms of qualitative feedback. Of all the students surveyed, most were satisfied with the teaching-learning experience. The teacher's voice was audible the speed of delivery was appropriate, and the overall experience was interesting. However, the department has a room of improvement in the accessibility of the Teachers and the regularity of classes as well as in making lessons more stimulating, by improving presentation and increasing question-answering in the class. Some measures may improve the perception of subject-expertise of Teachers among the students.

**Measures Taken By Department:**

- All the teachers are available in the departing during office hours.
- Classes are conducted on timely and regularly.  
The digital mode of teaching and learning practices is adopted in the department whenever it is necessary.
- Students are encouraged to raise their doubts during on classes and off classes of teacher concerned.

ACADEMIC SESSION: 2017-18

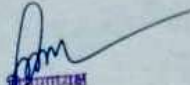

Department: Mathematics

**Feedback Received:** The students of Mathematics Department responded in terms of qualitative feedback. Of all the students surveyed, most were satisfied with the teaching-learning experience. The teacher's voice was audible the speed of delivery was appropriate, and the overall experience was interesting. However, the department has a room of improvement in the accessibility of the Teachers and the regularity of classes as well as in making lessons more stimulating, by improving presentation and increasing question-answering in the class. Some measures may improve the perception of subject-expertise of Teachers among the students.

**Measures Taken By Department:**

A meeting of all the faculty members is conducted and shared the feedback received by the students for the improvement of the quality of teaching. The faculties have been advised to attend the faculty development/ teacher's training programme etc. organized by premier institutions, for improving depth of the contents. The faculties have been also advised to motivate the students for question-answer during conduction of classes, so that the perception of teacher among the students can be improved. The department has informed the issue of room to the competent authority and department expect some more space will be provided to the department soon.

ACADEMIC SESSION: 2017-18

Department: Forestry

**Feedback Received** Students in the forestry department were satisfied with the teachers' pedagogy. They felt that communication skills, speed of delivery, and regularity of the classes needed little bit improvement. The teaching style was good, the teaching was interactive, the concept was clearly explained, the students were motivated. The subject was well mastered, the teachers were accessible, presentation and voice modulation were good. Though there is enough positive support of students, but there is a room for improvement in making the classes regular and more stimulating.

**Measures Taken By Department:**

Regular classes has been conducted for all the classes. Concerned class teachers using smart class facilities for effective delivery of the contents. The communication skill of the faculty members improved as they attended FDP programs.

Head of the Department

ACADEMIC SESSION: 2017-18

**Department:** Computer Science & Engineering

**Feedback Received:** The students of CSE department responded in terms of qualitative feedback. Of all the students surveyed, most were satisfied with the teaching-learning experience. The teacher's voice was audible the speed of delivery was appropriate, and the overall experience was interesting. However, the department has a room of improvement in the accessibility of the Teachers and the regularity of classes as well as in making lessons more stimulating, by improving presentation and increasing question-answering in the class. Some measures may improve the perception of subject-expertise of Teachers among the students.

**Measures Taken By Department:**

The teachers have been informed regarding the difficulties of the students and they have been instructed to explain their topics with more diagrams/illustrations and examples. Teachers have been also advised to prepare tentative lesson plan for their subject and they have been suggest to provide additional materials ,books weblinks etc. to the students for further reading. They have been also encouraged for the use of projectors as much as possible for expaning their complex topics and making it more interesting. Faculties were also suggested to ask questions randomly during their classes for making class more interactive and assessment of student's learning. The revision of all the major points before leaving of the class was also suggested.In the case of any leave they were instructed to engage before living. Faculties were also motivated and promoted for time to time knowledge snd skill enhancement by attending refresher. Orientation. FDP,STTP and workshop courses. Additionally through papers presentation and publications. The above measures and faculties involvements in different training /workshops etc, were helpful to take classes more interactive. Interesting and improves subject-expertise of Teachers.
