

4. "Mharani"

Maharani was a great webseries and after watching this discussion was conducted on 3rd of August 2021 and about 95+ students are participated.

Motive of this program to highlight the women participation in various fields including politics.

Maharani, set in the 90s Bihar, is a dramatization of a female politician who rose to power after fighting several odds. This political thriller is loosely based on Rabri Devi, Bihar's first and by far the only woman chief minister, who was handpicked as his successor by her husband, former CM Lalu Prasad Yadav.

Similarly, the plot of this show revolves around Rani Bharti, a homemaker and wife of Bihar's Chief Minister, whose life takes a sudden unexpected turn when her husband, Bheema Singh Bharti, declares her as the state's next CM. The intriguing premise of this drama is how Rani takes on the task of administering the state's politics despite having no formal education or understanding of politics. It was conducted in online mode.
