

DEPARTMENT OF POLITICAL SCIENCE, G.G.V, BILASPUR

Report on establishment of internship and placement cell of the department.

The political science department takes immense pride to start its own departmental level internship and placement cell for its student. Under this initiative, we are trying to collaborate with internationally recognized non governmental organization.

We have conducted various workshops for the students to enlighten them about the benefits of divulging in this sector. Recently two workshops were conducted in the departmental level, one was a "Resume making workshop" where students were given a brief idea about how a curriculum vitae should be made and an exclusive workshop was also given on "LinkedIn". The students were also given briefing about the various fellowship program's offered by institutions like London School of Economics, Byjus fellowship, Gandhi fellowship. A curated path was displayed in the workshop for the students to attain maximum benefit academically from these programmes.

It is very interesting to note that these sessions were held in the smart classroom allotted to the department, which made the session interactive and accessible to all. Also, the students themselves made use of the smart board to present their resumes before the class.

Under the internship initiative ten students from the B.A IV and M.A IV of our department did independently apply for an NGO, "Snehalaya" based in Maharashtra. The students were given induction through online mode and thereafter they have started their internship in Maharashtra for a tenure of one month.
