Deputing Chairman, GATE 2018

The GATE 2018 score is calculated using the formula

$$GATE\ Score = S_p + t \left(\frac{M - M_c}{M_c - M_c} \right)$$

where,

- M is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- M_c is the qualifying marks for general category candidates in the paper
- M is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- $S_p = 350$ is the score assigned to M_c
- $S_c = 600$ is the score assigned to M_c

In the GATE 2018 score formula, $M_c = 25$ marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission in a post-graduate program or a scholarship/stipendship. Admitting institutes may conduct further tests and interviews for final selection.
