The GATE 2019 score is calculated using the formula:

$$GATE\ Score = S_1 + (S_2 - S_1) \frac{(M - M_0)}{(M_1 - M_0)}$$

where,

- M is the marks obtained by the candidate in the paper mentioned on this GATE 2019 scorecard
- M_1 is the qualifying marks for general category candidate in the paper
- M_0 is the mean of marks of top 0.1% or top 1% (whichever is larger) of the candidates who appeared in the paper. (In case of multi-session process including all sessions)
- $S_1 = 35$ is the score assigned to M_1
- $S_2 = 100$ is the score assigned to M_0

In the GATE 2019 score formula, M_0 is 25 marks (out of 100 or $\mu + 4$, whichever is greater, then μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper).

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/stipend. Admitting institutions may conduct further tests and interviews for final selection.
