*Marked marks for individual items. *Qualifying marks are specified for the respective subject. Mark is to be given only if the candidate has qualified in the respective subject. Qualifying marks are to be given only if the candidate has qualified in the respective subject.

The GATE 2019 score is calculated using the formula:

$$\text{GATE Score} = S_q + (S - S_q) \frac{(M - M_q)}{(M_q - M_q)}$$

where:
 M is the marks obtained by the candidate in the paper mentioned on this GATE 2019 scorecard
 M_q is the qualifying marks for general category candidates in the paper
 M_q is the mean of marks of the 0.1% or the 10 (whichever is larger) of the candidates who appeared in the paper in concerned examination papers (including all sessions)
 S_q = 200 is the score assigned to M_q
 S = 400 is the score assigned to M

In the GATE 2019 score formula, M_q is 25 marks (out of 100) or 10% or whichever is greater. Here, q is the mean and p is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting Institute may conduct further tests and interviews for final selection.
