25-03-2018	Inauguration and thermocol cutting	Mr. Ramakant Soni	17
26-03-2018	Finishing of products	Mr. Ramakant Soni	17

A Brief Abstract of the Event (Maximum 500 Words):

A two days skill development training program from **25/03/2018 to 26/03/2018** on **Thermocol Training Program** was jointly organized by Department of Rural Technology and Social Development and Skill Development Cell, GGU at Department of Rural Technology and Social Development, GGU. Thermocol art is a very easy, beautiful and cheap in cost. In this art a small piece of Thermocol can be made into a piece of art. Thermocol sheets are used to prepare desired shapes using scissors, emery or sand paper and later can be made more attractive by painting them with vibrant colors. Raw materials basically required are scissors, glue, Thermocol, glitters and paints. They are ecofriendly and also easy to work with because of their easily molding capacity. Dr. P.R Singh was the coordinator of this training program and artist Mr. Ramakant Soni was invited as master trainers of this training program. A total of 17 participants were registered for this training program. Mr. Soni gave comprehensive information and demonstration about Thermocol art to the participants. Some beautiful products were prepared by the participants during the training time periods like peacock, flower vase, flowers and some wall decorating materials.

Participants learning cutting of thermocol sheet
