This to certify that Mr. Abhay Ingley S/o. Mr. Jaswant Rao Ingley, Student of B.SC. FOURTH SEMESTER (Mathematics Honours) OF GURU GHASIDAS UNIVERSITY has completed his project on Production Planning Process towards product of coca-cola. from M/s. NARMADA DRINKS PVT. LTD. from 1st June 2023 to 15th June 2023 (60 Hrs) for the partial fulfillment of his academic courses BSC requirement.

Thanks
For Narmada Drinks Pvt. Ltd.

THE COCA-COLA COMPANY

Introduction

The Coca-Cola Company Coca-Cola, the product that has given the world its best-known taste was born in Atlanta,

Georgia, on May 8, 1886. Coca-Cola Company is the world's leading manufacturer, marketer and distributor of non-alcoholic beverage concentrates and syrups, used to produce nearly 400 beverage brands. It sells beverage concentrates and syrups to bottling and canning operators, distributors, fountain retailers and fountain wholesalers. The Company's beverage products comprises of bottled and canned soft drinks as well as concentrates, syrups and not-ready-to-drink powder products. In addition to this, it also produces and markets sports drinks, tea and coffee.

The Coca-Cola Company began building its global network in the 1920s. Now operating in more than 200 countries and producing nearly 400 brands, the Coca-Cola system has successfully applied a simple formula on a global scale:

“Provide a moment of refreshment for a small amount of money- a billion times a day.”

The Coca-Cola Company and its network of bottlers comprise the most sophisticated and pervasive production and distribution system in the world. More than anything, that system is dedicated to people working long and hard to sell the products manufactured by the Company. This unique worldwide system has made The Coca-Cola Company the world's premier soft-drink enterprise. From Boston to Beijing, from Montreal to Moscow, Coca-Cola, more than any other consumer product, has brought pleasure to thirsty consumers around the globe. For more than 115 years, Coca-Cola has created a special moment of pleasure for hundreds of millions of people every day.

The Company aims at increasing shareowner value over time. It accomplishes this by working with its business partners to deliver satisfaction and value to consumers through a worldwide system of superior brands and services, thus increasing brand equity on a global basis.

Narmada Drinks Pvt.Ltd (NDPL)

“NARMADA DRINKS PVT. LTD.”(NDPL) is a Franchisee of the COCA COLA Company. It is a fairly new unit & was renovated in the year 2000. After renovation it was started in the month of Feb. 2001. The Plant covers an area of 7.5 acres and is situated in the lush green SIRGITTI INDUSTRIAL AREA OF BILASPUR (CHHATTISGARH).

NDPL follows The Coca-Cola Management System (KORE) and applicable ISO Standards such as ISO 9001 : 2015 for (QMS), FSSC 2018 Version -5.1 as on date for Food Safety , ISO 14001 :2015 for Environ Management System and Safety Management System ISO 45001 :2018 for the Health and Safety to demonstrate Its Strength . We possess valid certificate for all the above ISO standards as on date.

The Manufacturing facility is capable of producing 200ml, 300ml returnable glass bottle packs ,PET bottles of 250ml,300ml,500ml, 600 ml,1.0 LT , 1250ml,1500ml ,2.0Ltr 2.25Ltr. packs of all the flavors – Thums Up, Coca-Cola, Fanta Orange, Sprite and Limca. Kinley Soda in the Pack of 500 ml, 600ml & 750ML Pack, Kinley Packaged Drinking Water in 1.0 Ltr & 500 ml Package. The Product portfolio varies depending upon the market requirement.

The Plant has 3 manufacturing lines, 750 BPM for 200ml RGB, 550 BPM for 300 ml RGB packages, 160 BPM for PET CSD & 50 BPM Packaged Drinking Water Kinley One Ltr. We distribute the products both produced here & outsourced from other Franchisees / Co packers across the country to entire CHHATTISGARH through our distributor's network.

Process of Production of soft drink -

Step 1-water treatment

Step 2-syrup production

Step 3-bottling process

CONCLUSION

During internship period a lot of experience, knowledge and exposure I have gained, the overall experience was positive, and everything I learned would be useful in my future career in this field.

From the findings of this study, it is evident that brand for the rice powder evolved over time. Price is an important factor needs to be considered.

Market is changing and people are looking for better products and those company which offer a better product becomes the market leader.

However, there are areas till some weakness that can be improved in the future. Therefore, I conclude that the internship program has provided many benefits to students even if the rare minor flaws that are somewhat disfiguring condition, so that this weakness can be rectified in the future.

INTRODUCTION:

SANDEEP PHYSICS POINT:-

*This institute has been working continuously for the last 20 years and the name of this institute IS **SANDEEP PHYSICS POINT** and the director of this institute is **MR. SANDEEP GUPTA** . the institute is spread over approximately 2000 sq. feet. all subjects are taught in this institute from class 1 to class 5 and science and*

mathematics are taught from class 6 to class 10 .in this institute , class 11th and class 12th physics chemistry and biology is taught , about 250 students are taught in this institute , there is an exam every week in this institute and there is a separate extra class for those students whose marks are not good . lee and the discuss are cleared of their douts , allowing them to perform well in an upcoming test . this institute was taught by 5 experience teachers .

7 days free demo is given to the students in this institute

AIMS AND OBJECTIVES

To enhance learning and co-curricular interest of students :-

1. Develop logical thinking of students
2. Make students hard working.
3. To sharp character and behavior of students.
4. To provide affordable course to needy students.
5. Encourage students to set their goal and work on it.
- 6.

3. OBJECTIVE

I had a very big dream to become a good teacher, leader and guide to help people reach their destination. My primary objectives for doing this internship were as follows-

- (1) To experience the feel of being a teacher in a school environment.
- (2) To implement the different ways of teaching that I had planned.
- (3) To learn and develop essential skills to become a good teacher.
- (4) To learn how to maintain discipline in a classroom and create a good learning environment.
- (5) To understand the different roles and responsibilities of a teacher.
- (6) To involve students continuously in the learning process by answering questions, solving doubts and providing individual experience.
- (7) To learn how to track students' progress by taking quizzes, class tests, assignments, etc.

LETTER OF EXPERIENCE

Sincerely, Name of the Staff: **Ms. Anamika Banjare**

Designation: **Executive – Front Office**

Work Period: **16.05.2023 to 15.06.2023 3 hour's Per day**

Ms Anamika banjare daughter of Mr Ashok banjare has been working with our firm SHREE GANESH AUTOMOBILES (Authorised dealer of EICHER TRACTORS, Sales Service & Spares) from 16.05.2023 onwards. She joined as an Executive Front Office.

As an Executive she was meeting all her given deadlines. She owns good leadership qualities. She supported the Other Department extensively. Her aptitude and zeal are always remarkable.

She rarely needed supervision & even handled pressures well. She always had willingness to volunteer work. Her superior skills & work ethics are remarkable. Even at the period of pandemic she gave her best without bothering the barriers of time & other hindrances.

She left the organization because of her medical issue. Wishing her all the best

Sincerely,

Regards

Eicher tractor was a manufacturer of tractors, agricultural machinery and engines. The company was founded in 1936 by the brothers Joseph and Albert Eicher in the Upper Bavaria town of Forstern. The brand name "Eicher" was last used in Europe in 2009 by the Dutch agricultural machinery dealer Hissink and Zonen and is still in use today in India by Eicher Motors, which manufactures tractors and commercial vehicles by this name.

The first Eicher tractor was made by Joseph and Albert Eicher in the 1930s, in the village of Forstern, near Munich, in Bavaria, Germany. Was the beginning of considerable development of Eicher's Forstern and Dingolting factories. These pioneers made several tests and carried out a patient work of elaboration. The first evolution was marked by the construction of an automatic mower and a three-wheeled tractor. In 1936 Eicher built the first diesel tractor with a 14.7 kW Deutz diesel engine. The engine was welded to the frame and the rear axle was flanged. More and more tractors were sold, even tractors could be exported to Austria.

SWAMI ATMANAND GOVERNMENT ENGLISH MEDIUM SCHOOL,
MANGALA BILASPUR (C.G.)

ABSTRACT

About the Organisation

*In Chhattisgarh, Swami Atmanand dedicated his life to serving humanity. He has selflessly devoted his life to the tribal people and inspired young people by teaching them about compassion and serving others. To honor his legacy, the **Swami Atmanand English Medium School** Scheme was introduced. On Nov 1 2020, to mark Statehood Day, Chief Minister Bhupesh Baghel unveiled the Scheme.*

Swami Atmanand English Medium School is a chain of English medium school established by Government Of C.G. The school is completely funded by Department of School Education, Government of Chhattisgarh. The education is free of cost till grade 8, afterward there is a nominal fee till grade 12.

Vision

Chief Minister Bhupesh Baghel's vision behind this scheme is to establish educational institutions in Chhattisgarh that have excellent facilities at par with private schools but are accessible and affordable for the parents of economically weaker sections of society as well. Old Pre-existing government schools were also involved in the same order scheme to give this plan a tangible form. First and foremost, these pre-established schools'

infrastructure was upgraded. Buildings were restored, classrooms received a fresh coat of paint, and outdated blackboards and green boards were swapped out for smart boards. New comfort batch workstations were installed in place of the obsolete bench table. Modern science apparatus was installed in newly constructed, functional labs.

Aims

The focuses of Academic activities are towards enrichment of the total personality of the learners: -

- To help them to become mature, spiritually oriented persons of character and thereafter help to build in them integrated national character.*
- To instil in them the spirit of nationalism, patriotism and understanding.*
- To train them to obey their elders, parents, teachers and further to discipline themselves for hard work, creativity co-operation, team-work and leadership*
- To identify their talents, fields of interest and develop them with able guidance.*
- Along with academic excellence, the school strongly up holds moral and spiritual values.*

ABSTRACT

Indian Oil Corporation Limited, with an annual profit of about 2 Lac Crores is the largest Company in India for sale. It also nominated Indian companies in the list of companies with a value of 125. In such a large company the common problem is Receivable Management and creates a sound Credit Policy and Collection Procedure. In this volatile Oil Market it is very difficult to keep the standard of debtors Sundry Deber and that is why it is profitable. In addition the Private Companies enter the Oil Sector which has provided a tough IOCL competition.

Indian Oil Corporation Limited is an Indian Public sector undertakings in India under the ownership of the Ministry of Petroleum and Natural Gas, Government of India. It is headquartered in New Delhi. It is a public sector undertaking whose operations are overseen by the Ministry of Petroleum and Natural Gas. Indian Oil is ranked 142nd on the Fortune Global 500 list of the world's biggest corporations as of 2022. It is the largest government owned oil producer in the country both in terms of capacity and revenue.

ABSTRACT

BACKGROUND:

Dahleez Foundation is a non-profit, non-political Indian charitable Trust established in 2019 that aims to work towards the growth, development and progress of children and their families.

PROJECT OBJECTIVE AND SCOPE:

The objective and scope of the Project is to provide Educational, health and nutritional service to needy children and family. It provides support to children and their families through charity events.

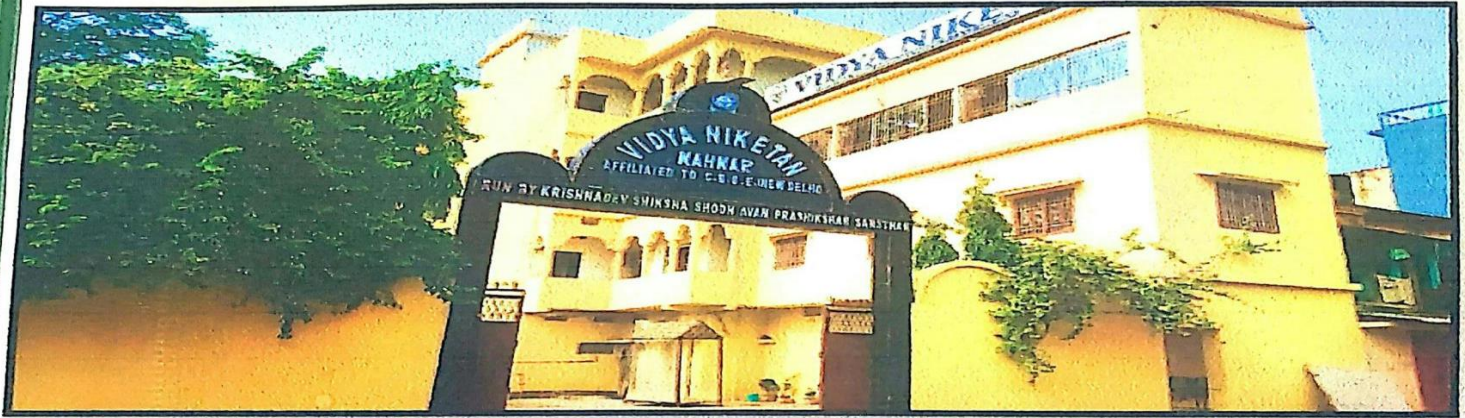

PROJECT PROFILE:

Our method of doing the work was by completing the task given to us by our mentor. We did different types of task that were assigned to us to get the knowledge about the working of the NGO. Our task was to gain experience by working in a non-governmental organization and help the NGO in best possible way.

MY INTERNSHIP ROUTINE

I, Ankesh Suman, a mathematics intern in Vidya Niketan school, Mahnar, Bihar. I used to go to school at 6:50 AM as my house is 10 km away from my home. School assembly starts at 7:00 AM and ends at 7:30 AM. Prayer is an integral part of school routine where students perform various duties like news reading, thought of the day, word of the day to improve their vocabulary in language and very often teachers also transmit some knowledge or announce important information. After assembly period, I used to take first period in Section 'A' of Class X from 7:30 AM to 8:30 AM. Then 8:30 AM to 9:30 AM. I used to sit in the office and prepare myself for upcoming classes. I try to refer various books and sources for effective teaching as maths is all about practice so I select questions from internet or other sources including NCERT book. School routine has breakfast period from 9:20 AM to 9:30 AM where students take their food.

Then from 9:30 AM to 10:30 AM and 10:30 AM to 11:30 AM. I take classes in section 'B' and 'C' of class X respectively. After two consecutive period, I used to take a break of 10 minutes in staff room and ask learner to submit their notebook for checking of their book exercise. That last period of 11:30 AM to 12:30 PM was all about doubt clearing session where students who have any doubt used to come to staff room, where I scabbold them to find the solutions of those questions by giving hints and clues.

After completion of my duties as a teacher, I used to write my report about classes and check it from my guide, Mr. Dhruv Kumar (Mathematics teacher). This is how I have completed my daily 5 hours of internship in Vidya Niketan school.

INTERNSHIP REPORT

INTRODUCTION

During my internship I had the invaluable opportunity to embark on an enriching journey as a mathematics educator for students in classes 6, 7, and 8. This experience provided a dynamic platform to instill a love for mathematics and foster a deeper understanding of this essential subject among young minds.

As an aspiring educator, I embarked on this internship with a passion for inspiring students and making a positive impact on their academic growth. Mathematics, being the foundation of many disciplines and a key aspect of problem-solving, holds immense importance in shaping students' analytical and critical thinking abilities.

The objective of this internship was twofold. Firstly, to facilitate a seamless transition from basic to more advanced mathematical concepts, encouraging students to build upon their existing knowledge and explore the intriguing world of mathematics. Secondly, to create an engaging and supportive learning environment, where students could confidently approach challenging mathematical problems and cultivate a growth mindset.

Throughout the internship, I adopted innovative teaching methodologies, interactive activities, and practical applications to make mathematics relevant and relatable. My focus was not only on conveying mathematical concepts but also on nurturing the students' confidence in their mathematical abilities, fostering a positive attitude towards the subject, and encouraging them to embrace mistakes as opportunities for growth and learning.

The curriculum encompassed a diverse range of topics, including fundamental arithmetic, algebra, geometry, data analysis, and number theory. Each class presented its unique challenges and opportunities, as students at different grade levels displayed varying learning styles and aptitudes.

This report aims to provide insights into my experiences during the mathematics teaching internship, shedding light on the methodologies utilized, challenges faced, and the positive outcomes achieved. It highlights the significance of effective pedagogy, adaptability, and the joy of witnessing students' mathematical growth and progress.

In conclusion, the mathematics teaching internship at [DAV MUKHIYMANTRI PUBLIL SCHOOL] was a transformative experience, allowing me to refine my teaching skills and contribute to the intellectual development of young learners. It reinforced the belief that education is a powerful catalyst for empowering future generations, and I am grateful for the opportunity to have played a role in nurturing the mathematical minds of the students in classes 6, 7, and 8.

TO WHOM SO EVER IT MAY CONCERN

This to certify that Ms. Aparna Gupta d/o. Mr. Rajanikant Gupta, Student of BSC FOURTH SEMESTER (Mathematics Honours) OF GURU GHASIDAS UNIVERSITY has completed her project on Production Management towards product of coca-cola. from M/s. NARMADA DRINKS PVT. LTD. from 15th may 2023 to 30th may 2023 for the partial fulfillment of her academic courses BSC requirement.

Thanks,

For Narmada Drinks Pvt. Ltd.

CONCLUSION

This internship has been a great and useful experience for me. I safely say that this helps me to increase my confidence and increases the understanding of a Job Environment. It is fascinating to see and work in the Production area of food and beverages making company. In production area, I get to know that how the machine work and how hygienically and properly workers do their jobs and I also try to do so. Definitely I learn a lot from them and I think it will help me in my future job. The work experiences in encountered during the internship allowed me to develop (specific skills). I think I still required to work on my skills. But the overall experience was positive and everything I learned would be useful in my future career.

Internship Program Report: Teaching in a School

Ashutosh patker,
Gurughasidas central university,
Bilaspur (c.g.)
Date:- 16th june 2023,

Introduction:

This report presents an overview and analysis of a 30-day internship program focused on teaching in a school. The objective of the internship was to provide aspiring educators with hands-on experience in a real classroom setting. This report will discuss the program's structure, activities, challenges faced, and the overall impact on the interns' professional development.

Program Structure:

The internship program spanned 30 days, during which participants were assigned to various classrooms in a local school. The interns worked under the guidance and supervision of experienced teachers, who served as mentors throughout the program. The internship incorporated a combination of observation, co-teaching, and independent teaching experiences, allowing the interns to gradually assume greater responsibility in the classroom.

CONCLUSION AND RECOMMENDATION

I would like to conclude that through such thorough survey only, I was able to know that following the standard operating procedures helps in increasing sales, boosts worker productivity and enhances a retail pump's image and thus knowing the business impact of Standard Operating Procedures on the retail pump operations. Thus I would like to suggest and recommend that:

Retail pumps should be well maintained and if the equipments or the infrastructural components (VRS, CANOPY, DRIVEWAYS, YELLOW LINES, DRINKING WATER PUMPS, TOILETS, FORECOURTS, and PYLONS) are not maintained, they should be maintained and cleaned.

Satisfying and meeting the demand of the customers should be the first priority.

Weekly Inspections must take place of the SOP Enabled retail pumps by the inspection officers or sales officers, that whether the retail pumps are following the guidelines of SOP or not.

Hindustan Petroleum is one of the leading corporations in the petroleum sector in India. In the SWOT analysis of Hindustan Petroleum, we observed that the company has made a presence across the nation and its brands are well established in the market. The company regularly faces challenges with the increase in the number of competitors in the same space.

With increasing awareness of the customers upon the use of electric motors and appliances, the company needs to expand its services and grow it using better marketing efforts. In a changing world where digital marketing is of supreme importance, being well informed in the field is a must for all marketing passionates. The company has not taken any loans or other borrowings from any lenders.

EXECUTIVE SUMMARY

The main objective of this report was to give an overview of the function of the front office team of The Sanskar School Jaijaipur. This report has considered different aspect of The Sanskar School, particularly regarding the function on Sanskar Front Desk. As I was mainly selected as a trainee in the Sanskar School Front desk team which is a part of the front office management so my research topic about the report is "front office operations and service features of the Sanskar School."

Initially I divided the entire report in three parts. In my First part I gave the introduction with the organizational overview which consists of with the School's profile, background, its vision and mission and a brief departmental overview. Second part is the main part where I have explained, institute's principal and purpose, key services and the facilities. Third part is mainly the job responsibilities that I had to do while serving as a trainee in the Sanskar Schhol front Desk.

I gave the whole Idea about the front office operation, how it works, how we organize our task so that every guest leaves with a smile and a pleasant memory.

This is to certify that **MR.Chandrakant Son** from Guru Ghasidas Vishwavidyalaya Bilashpur (C.G.) has successfully completed his internship program of 15 days from : 16 june 2023 to 30 june 2023 with Government Prathmik Sala Batanhara.

Internship: Teaching Mathematics in Practical Way

During his tenure , we found him active and competent in his tasks and service .His work is found to satisfactory. During this period of his program . He has been exposed to different process and challenges. He is hardworking and inquisitive.

We wish him great success in all of his future endeavours.

Date : **01 july 2023**

Introduction Report: Internship at PS Batanharra

Internship Period: [16TH OF JUNE TO 31ST OF JUNE 2023]

INTRODUCTION:

During my internship at PS Batanharra, a government school, I had the opportunity to teach mathematics to students in grades 3rd, 4th, and 5th. The internship lasted for 15 days, and it was an enriching experience for both the students and myself. This report aims to provide an overview of my activities, the teaching methodologies employed, and the impact observed during the internship.

OVERVIEW OF ACTIVITIES:

1. CLASSROOM PREPARATIONS:

Before commencing the teaching sessions, I familiarized myself with the syllabus and curriculum for each grade. This enabled me to prepare lesson plans and teaching materials tailored to the specific needs of the students.

2. TEACHING SESSIONS:

a) Grade 3: I focused on developing foundational mathematical skills, such as number recognition, basic arithmetic operations, and simple problem-solving. Interactive activities and games were utilized to engage the students and reinforce their understanding of key concepts.

b) Grade 4: The curriculum for grade 4 encompassed more advanced topics, including fractions, decimals, and measurements. I employed a combination of visual aids, real-life examples, and collaborative learning techniques to ensure a comprehensive understanding of these concepts.

c) Grade 5: In grade 5, the focus shifted towards more complex topics like geometry, algebraic expressions, and data interpretation. To make these topics accessible and engaging, I incorporated hands-on activities, group discussions, and problem-solving exercises.

3. ASSESSMENTS AND FEED BACK:

Regular assessments were conducted to evaluate the students' progress and identify areas that required further attention. Additionally, I provided individualized feedback and guidance to each student to foster their academic growth.

4. EXTRA CURRICULAR ACTIVITIES:

In addition to the core mathematics curriculum, I organized extracurricular activities like puzzles, quizzes, and math games to nurture the students' interest in mathematics outside the traditional classroom setting.

IMPACT:

The internship at PS Batanharra had a positive impact on both the students and myself. Some notable observations include:

- 1. Increased Engagement:** The interactive teaching methods employed during the internship resulted in heightened student engagement and participation. Students actively contributed to class discussions and demonstrated a willingness to explore and apply mathematical concepts.
- 2. Improved Conceptual Understanding:** Through hands-on activities, real-life examples, and visual aids, the students showcased improved conceptual understanding of mathematical topics. They were able to connect abstract concepts with practical applications, thereby enhancing their problem-solving abilities.
- 3. Enhanced Confidence:** As the internship progressed, the students exhibited increased confidence in approaching mathematical problems. Their willingness to tackle challenges and explore different strategies demonstrated the development of a growth mindset.
- 4. Strengthened Teacher-Student Relationships:** The close interaction and individualized attention fostered positive teacher-student relationships. Students felt comfortable seeking clarification, asking questions, and actively participating in classroom activities.

CONCLUSION:

This Internship had been a very useful experience for me. I can safely say that my understanding of the job environment has increased greatly. I need to build more confidence in applying accounting principles. The work experience I encountered during the internship allowed me to develop specific skills. I think I still require to work on some skills. But, this overall experience was positive, and everything I learned would be useful in my future career in this field.

CONCLUSION

The Coca Cola Company is currently one of the biggest and most recognized soft beverage brands in the world. With over 300 products in more than 200 countries, the Coca-Cola Company has surely become part of people's lives. The Coca-Cola Company owes its success to the people who do their best to achieve the task at hand. Thus, the Cola-Cola Company takes cares of its employees in return by creating a good working environment and working along with unions and government agencies to make sure its employees are safe. The Coca-Cola Company understands that in today's business world technology is very essential to run such a big company like Coca-Cola. Therefore, the Coca-Cola Company uses different types of technology such as creating databases and data warehouse about their customers and suppliers, doing business with consumers and other businesses through the internet.

□ The Coca-Cola success isn't something that has been achieved over night. Many years has passed since John Pemberton created the secret formula for Coca-Cola in 1886. Who would have thought that after over a hundred years, his creation would have this much impact in the world and turn Coca-Cola into a worldwide recognized company.

ABSTRACT

Architecture designing is the process of creating functional and aesthetically pleasing structures or spaces. It involves the planning, designing, and construction of buildings, landscapes, and other physical structures.

Architects use their creativity, technical knowledge, and understanding of human needs to design structures that are both functional and visually appealing. They consider factors such as the purpose of the building, the site conditions, environmental sustainability, and the needs of the users.

Architectural design can encompass a wide range of projects, including residential buildings, commercial complexes, institutional buildings, public spaces, and urban planning. The final design should not only meet the client's requirements but also enhance the surrounding environment and contribute positively to the community.

Organisation Information:

Monarch Studio is an architectural design firm located in Raipur, Chhattisgarh. They specialize in creating innovative and sustainable designs for residential and commercial buildings. With a team of experienced architects and designers, Monarch Studio aims to provide functional and aesthetically pleasing spaces that meet the needs and preferences of their clients.

Their design process begins with a thorough understanding of the client's requirements, goals, and budget. They then develop initial design concepts through sketches, drawings, and 3D models. These concepts are further refined and developed in the design development stage, where more detailed drawings and specifications are created.

Monarch Studio also places a strong emphasis on sustainability and environmental considerations in their designs. They strive to incorporate

energy-efficient systems, use environmentally friendly materials, and create spaces that harmonize with the natural surroundings.

In addition to their architectural services, Monarch Studio also offers construction documentation and administration. They work closely with contractors and builders to ensure that the design is implemented correctly and address any issues that may arise during the construction process.

Overall, Monarch Studio aims to create architectural designs that not only meet the functional needs of their clients but also enhance the surrounding environment and contribute positively to the community.

Some achievements of Monarch Studio:

- 1. Award-winning designs:** Monarch Studio has received recognition and awards for their innovative and sustainable designs. Their projects have been celebrated for their creativity, functionality, and environmental consciousness.
- 2. Successful completion of residential and commercial projects:** Monarch Studio has successfully completed numerous residential and commercial projects, ranging from individual homes to large-scale commercial buildings. Their ability to deliver projects on time and within budget has earned them a reputation for reliability and professionalism.
- 3. Positive client feedback:** Monarch Studio has received positive feedback from their clients for their exceptional design skills, attention to detail, and ability to translate their vision into reality. Their commitment to understanding and meeting client needs has resulted in long-lasting relationships and repeat business.
- 4. Contribution to sustainable architecture:** Monarch Studio's emphasis on sustainability and environmental considerations sets them apart in the industry. By incorporating energy-efficient systems, environmentally friendly materials, and designs that harmonize with

the natural surroundings, they are contributing to a more sustainable built environment.

- 5. Collaborations with reputable contractors and builders:** Monarch Studio has established strong relationships with reputable contractors and builders in the industry. Their collaborative approach ensures that the design is implemented correctly and any construction issues are addressed promptly, resulting in successful project outcomes.

Overall, Monarch Studio's achievements reflect their commitment to excellence in architectural design, sustainability, client satisfaction, and collaboration with industry professionals.

Learning Objectives / Internship Objectives

Internship are generally thought of to be reserved for college students looking to gain experience and develop their skills.

An objective for this position should emphasize the skills you already possess in the area and your interest in learning more.

Internship are utilized in a number of different career fields, including architecture, engineering, healthcare, economics, advertising and many more.

Some internship is used to allow individuals to perform scientific research while others are specifically designed to allow people to gain first-hand experience working.

INTRODUCTION

Internship is referred as a program that offers good practical training or any work in the specified companies as well as the Government Organisations.

Internship provide students with signified skills and knowledge and motivate them. The students gain both the theoretical and practical knowledge during the training provide there are different course thought under industrial training worked for 4 hours daily for 15 days. Once the student successfully completed the internship. They should go through the training assisment. The student qualified will be given a certificate according to the training they have obtained.

Introduction

An Internship is a professional learning experience that offers meaningful practical work related to a student's field of study or career interest. An internship gives a student the opportunity for career exploration and development and to learn new skills. It offers the employer the opportunity to bring new ideas and energy into the workplace, develop talent and potentially build a pipeline for future full-time employees. A quality internship

consists of a part-time or full-time work schedule that includes no more than 25% clerical or administrative duties, provides a clear job/project description for the work experience, orients the student to the organization, its culture, and proposed work assignments. Helps the student develop and achieve learning

INTERNSHIP GOALS AND OBJECTIVES

My primary goal and objectives of this internship in the primary school was to observe and learn from experienced teachers and educational professionals in a primary school setting and develop skills in lesson planning, classroom management, and student engagement while having a practical experience of working with students in a primary school setting.

I planned to seek a deeper understanding of the teaching profession and the role of a primary school teacher, gain exposure to different teaching methods and approaches, to develop professional relationships with teachers, staff, and other educational professionals.

I also aimed on gaining experiences and observe in order to improve teaching and learning practices, gain insights into the challenges and opportunities in primary school education and much more. Finally, I hoped to gain deeper understanding of the same.

CONCLUSION

With the study of the view of employees and management. I come to the conclusion that the importance of employees' welfare is very high because it controls the life of employees, the spirit of knowledge working on their respective jobs.

Especially in my opinion I have, I gave a lot of Importance to the employee welfare, health & safety & social security. There is not much awareness about the various schemes and facilities available for the workers amongst themselves.

Introduction Report: Victoriya Public Hr. Secondary School

Internship Period: [17TH OF MAY TO 16ST OF JUNE 2023]

INTRODUCTION:

During my internship at Victoriya public Hr. Secondary school, I had the opportunity to teach mathematics to students in grades 3rd, 4th, and 5th. The internship lasted for 29 days, and it was an enriching experience for both the students and myself. This report aims to provide an overview of my activities, the teaching methodologies employed, and the impact observed during the internship.

OVERVIEW OF ACTIVITIES:

1. CLASSROOM PREPARATIONS:

Before commencing the teaching sessions, I familiarized myself with the syllabus and curriculum for each grade. This enabled me to prepare lesson plans and teaching materials tailored to the specific needs of the students.

2. TEACHING SESSIONS:

a) Grade 3: I focused on developing foundational mathematical skills, such as number recognition, basic arithmetic operations, and simple problem-solving. Interactive activities and games were utilized to engage the students and reinforce their understanding of key concepts.

b) Grade 4: The curriculum for grade 4 encompassed more advanced topics, including fractions, decimals, and measurements. I employed a combination of visual aids, real-life examples, and collaborative learning techniques to ensure a comprehensive understanding of these concepts.

c) Grade 5: In grade 5, the focus shifted towards more complex topics like geometry, algebraic expressions, and data interpretation. To make these topics accessible and engaging, I incorporated hands-on activities, group discussions, and problem-solving exercises.

3. ASSESSMENTS AND FEED BACK:

Regular assessments were conducted to evaluate the students' progress and identify areas that required further attention. Additionally, I provided individualized feedback and guidance to each student to foster their academic growth.

4. EXTRA CURRICULAR ACTIVITIES:

In addition to the core mathematics curriculum, I organized extracurricular activities like puzzles, quizzes, and math games to nurture the students' interest in mathematics outside the traditional classroom setting.

IMPACT:

The internship at Victoriya Public School had a positive impact on both the students and myself. Some notable observations include:

1. Increased Engagement: The interactive teaching methods employed during the internship resulted in heightened student engagement and participation. Students actively contributed to class discussions and demonstrated a willingness to explore and apply mathematical concepts.

2. Improved Conceptual Understanding: Through hands-on activities, real-life examples, and visual aids, the students showcased improved conceptual understanding of mathematical topics. They were able to connect abstract concepts with practical applications, thereby enhancing their problem-solving abilities.

3. Enhanced Confidence: As the internship progressed, the students exhibited increased confidence in approaching mathematical problems. Their willingness to tackle challenges and explore different strategies demonstrated the development of a growth mindset.

4. Strengthened Teacher-Student Relationships: The close interaction and individualized attention fostered positive teacher-student relationships. Students felt comfortable seeking clarification, asking questions, and actively participating in classroom activities.

CERTIFICATE

DATE :- 03rd June, 2023

TO WHOM IT MAY CONCERN

This is to certify that Miss. **Kumkum Jain** student of BSc 4th Semester, Department of Mathematics, Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G.), has successfully completed the 2 weeks Internship from 22nd May, 2023 to 03rd June, 2023 with **Vibhuti Auto & Agro** Ambikapur (C.G.), she has done internship in Account Management.

She was found sincere, laborious and interested to the task given to him.

Regards
Vibhuti Auto & Agro
Ambikapur

TOPIC LEARNED DURING INTERNSHIP

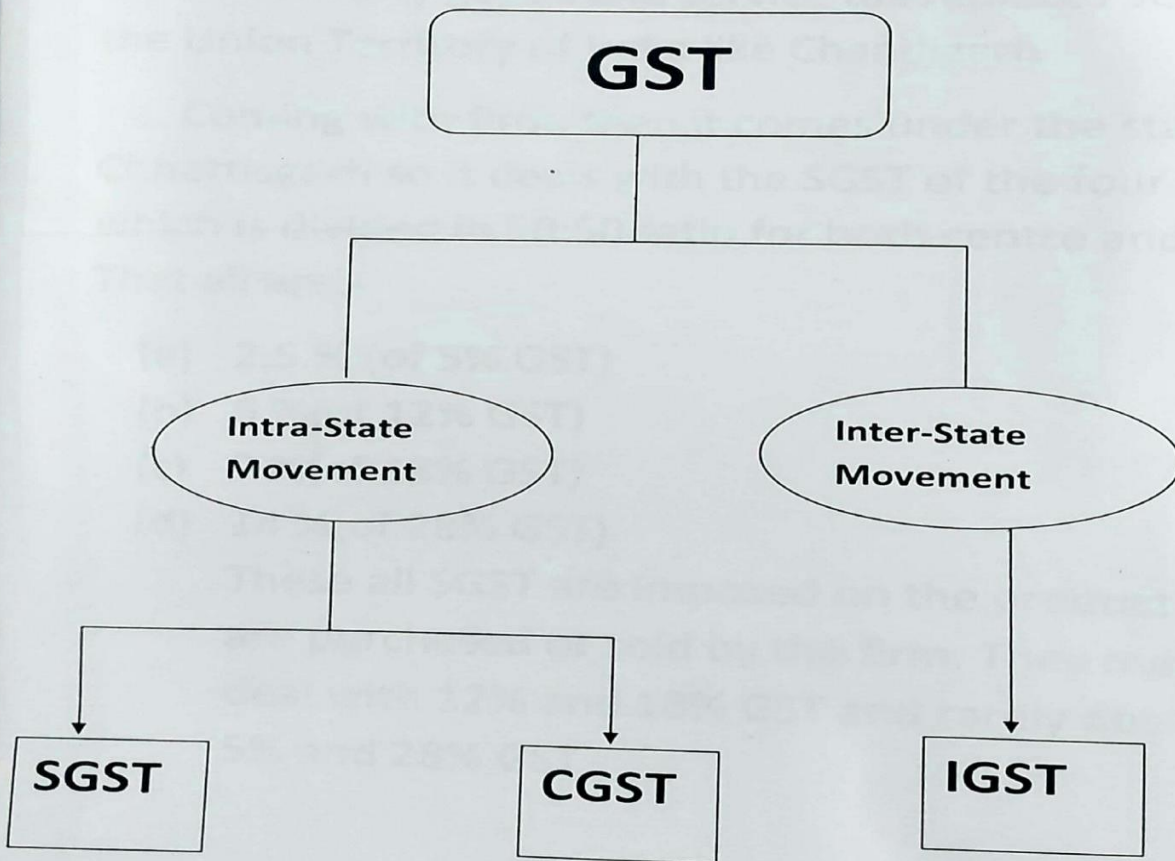

1. **G.S.T (Goods and Services Tax)** :- It is an indirect federal sales tax that is applied to the cost of certain goods and services. The business adds the GST to the price of the product, and a customer who buys the product pays the sales price inclusive of the GST. The GST portion is collected by the business or seller and forwarded to the government. It is also referred to as Value Added Tax (VAT) in some countries. Most countries with a single unified GST system, which means that a single tax rate is applied throughout the country. A country with a unified GST platform merges central taxes (e.g. sales tax, excise duty tax and service tax) with state level taxes (e.g. entertainment tax, entry tax, transfer tax, and luxury tax) and collects them as one single tax. These countries tax virtually everything at a single rate.

As **Vibhuti Auto & Agro** is having its business in automobile sector for agricultural items, so it also deals with GST in all its sales and purchase which is further mainly divide into three type of GST, that all are:-

- (i) SGST
- (ii) CGST
- (iii) IGST

(Maths, Hons.) 4th semester, Guru Ghasidas University, Bilaspur (C.G) has successfully completed her internship training of **60 hours** in 20 days during the period of **05.06.2023 to 26.06.2023** at Astitva Mahila Samiti.

During the above internship training period we found her sincere and hardworking. Based on her internship training she has prepared an internship report on **"REELING AND SPINNING OF TASAR SILK"**

We wish her a success in future endeavour

Pooja Verma
(President)

Astitva Mahila Samiti

अस्तित्व महिला समिति
बिलासपुर (छ.ग.)

EXECUTIVE SUMMARY

As a part of my B.Sc. course , I had a privilege to join “Astitva Mahila Samiti”, Bilaspur (C.G.) to do my internship course . I have completed my internship course of 60 hours from 5 June 2023 to 26 June 2023 under Astitva Mahila Samiti whose training centre is located at “Bharwidih” Village , Ratanpur .

During my internship period I have gained valuable knowledge and experience in the field of textile.

Therefore on the basis of my learning I have completed my internship Report On the Topic : “Reeling and Spinning of Tasar Silk” under the guidance of MRS.POOJA VERMA (president of A.M.S , bsp).

The aim of the internship was to put the theoretical knowledge of fabric science into practical use and it also imparted the whole processing and work flow , right from “fibre to fabric”.

The first week of internship aimed at providing detailed information about establishment and working process of Astitva Mahila Samiti. Also aimed to provide theoretical concepts about farming and production of different silk fibre .The Trainer used to take our theoretical class as well . Evidently , Astitva Mahila Samiti provides practical training for Tasar silk only under “SILK SAMARTH TRAINING”.

During second and third week of internship training, I learnt how spinning of Tasar Silk is done practically to obtained silk yarn which included different processes like separation of silk cocoon, boiling

and steaming of cocoon, degumming, Brushing, operating spinning machine and Buniyaad Reeling Machine , Reeling of silk fibre into silk yarn, Re-reeling etc.

we moved for the site visit of weaving of silk at SATYANARAYAN BUNKER SAHKARI SAMITI MDT. ,Lofandi (Bilaspur). I Was made familiar with different processes of weaving which included handloom , Frame loom, Pit loom, Shirting and shooting etc.

To conclude this summary, I gained an experience and practical knowledge in the field of Tasar silk . It indeed was a great learning process that will help me with not just for the course but for due lifetime.

RINKU UPADHYAY

INTRODUCTION

The purpose of this report is to document and reflect upon my teaching internship, which spanned a period of 16 days. Throughout this internship, I had the privilege of working closely with faculties of GLOBAL PUBLIC HR. SEC. SCHOOL, observing and participating in various educational activities, and immersing myself in the dynamic environment of the school.

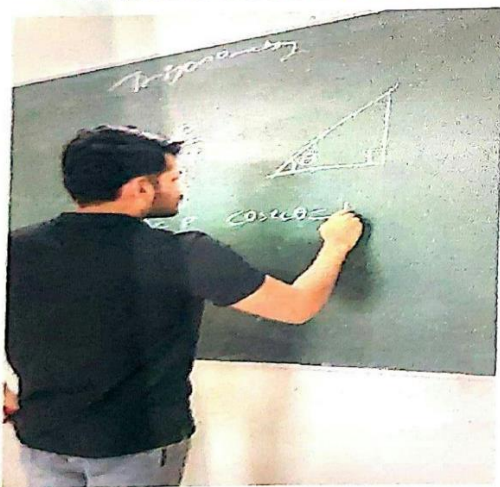

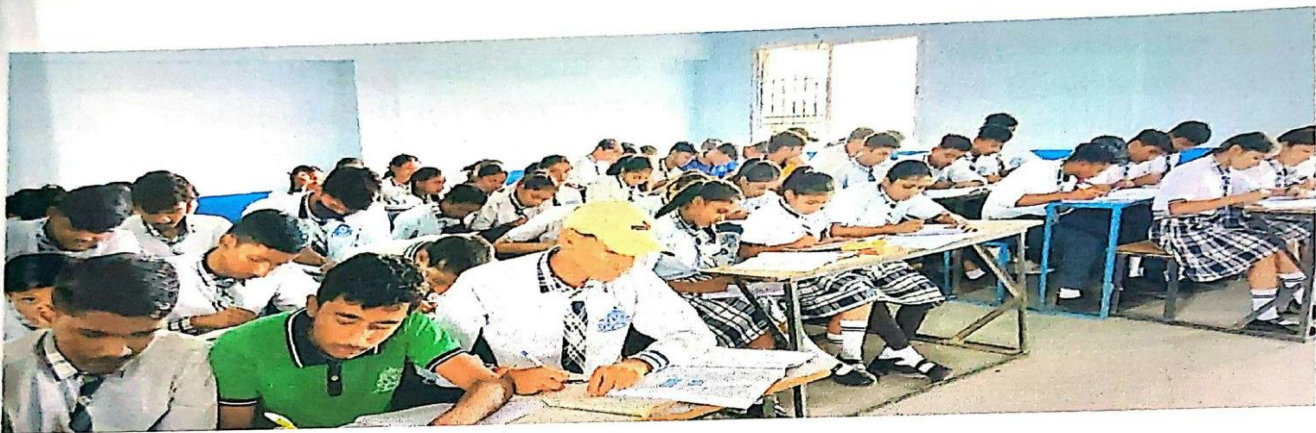

The report aims to outline the objectives of my internship, the activities I engaged in, and the learning outcomes I achieved. It provides a comprehensive overview of the tasks and responsibilities assigned to me, the challenges I encountered, and the strategies I employed to overcome them. Furthermore, the report includes reflections on my growth as an aspiring educator, highlighting the skills and knowledge I have developed during this internship.

The structure of the report is as follows:

1. Introduction and background
2. Objective and expectations
3. Methodologies and approaches
4. Classroom experience and observation
5. Collaborative learning and professional development
6. Assessment and feedback
7. Personal growth and lesson learnt
8. Conclusion

Through the comprehensive exploration of my teaching internship, this report aims to provide valuable insights into the practical aspects of teaching, highlight the integration of pedagogical theories into real-world classroom settings, and serve as a catalyst for ongoing development as an empowered educator.

1. Introduction

1.1. The Coca-Cola Company

Coca-Cola, the product that has given the world its best-known taste was born in Atlanta, Georgia, on May 8, 1886. Coca-Cola Company is the world's leading manufacturer, marketer and distributor of non-alcoholic beverage concentrates and syrups, used to produce nearly 400 beverage brands. It sells beverage concentrates and syrups to bottling and canning operators, distributors, fountain retailers and fountain wholesalers. The Company's beverage products comprises of bottled and canned soft drinks as well as concentrates, syrups and not-ready-to-drink powder products. In addition to this, it also produces and markets sports drinks, tea and coffee. The Coca-Cola Company began building its global network in the 1920s. Now operating in more than 200 countries and producing nearly 400 brands, the Coca-Cola system has successfully applied a simple formula on a global scale: "Provide a moment of refreshment for a small amount of money- a billion times a day."

The Coca-Cola Company and its network of bottlers comprise the most sophisticated and pervasive production and distribution system in the world. More than anything, that system is dedicated to people working long and hard to sell the products manufactured by the Company. This unique worldwide system has made The Coca-Cola Company the world's premier soft-drink enterprise. From Boston to Beijing, from Montreal to Moscow, Coca-Cola, more than any other consumer product, has brought pleasure to thirsty consumers around the globe. For more than 115 years, Coca-Cola has created a special moment of pleasure for hundreds of millions of people every day.

The Company aims at increasing shareowner value over time. It accomplishes this by working with its business partners to deliver satisfaction and value to consumers through a worldwide system of superior brands and services, thus increasing brand equity on a global basis. They aim at managing their business well with people who are strongly committed to the Company values, and culture and providing an appropriately controlled environment, to meet business goals and objectives. The associates of this Company jointly take responsibility to ensure compliance with the framework of policies and protect the Company's assets and resources whilst limiting business risks. More than anything, that system is dedicated to people working long and hard to sell the products manufactured by the Company. This unique worldwide system has made The Coca-Cola Company the world's premier soft-drink enterprise. From Boston to Beijing, from Montreal to Moscow, Coca-Cola, more than any other consumer product, has brought pleasure to thirsty consumers around the globe. For more than 115 years, Coca-Cola has created a special moment of pleasure for hundreds of millions of people every day.

To summarize

The Coca Cola Company is currently one of the biggest and most recognized soft beverage brands in the world. With over 300 products in more than 200 countries, the Coca-Cola Company has surely become part of people's lives. The Coca-Cola Company owes its success to the people who do their best to achieve the task at hand. Thus, the Coca-Cola Company takes care of its employees in return by creating a good working environment and working along with unions and government agencies to make sure its employees are safe. The Coca-Cola Company understands that in today's business world technology is very essential to run such a big company like Coca-Cola. Therefore, the Coca-Cola Company uses different types of technology such as creating databases and data warehouse about their customers and suppliers, doing business with consumers and other businesses through the internet.

The Coca-Cola success isn't something that has been achieved over night. Many years has passed since John Pemberton created the secret formula for Coca-Cola in 1886. Who would have thought that after over a hundred years, his creation would have this much impact in the world and turn Coca-Cola into a worldwide recognized company.

Description of my internship job-

I was working under a sole proprietor (Jai Maa Kali Traders), therefore experienced all the aspects of the business and about its client base. I worked from 1st of June to 15th of June. I was given supporting jobs to accomplish. They provide the opportunities to an intern to learn many things. Working at a traders and hardware shop like Jai Maa Kali traders was a true corporate orientation for me. Employees perform their regular duties and they involved me as a support to achieve those. I basically accomplished several duties. The principles were set by them and I was just a follower. I was working as assistant to the proprietor in the firm. My work included receiving the orders and making sure delivery is done. Orders were received from the clients over phone and I asked if any other requirement is there. (To ask about other products if required). I had to note down the order on the order form. Communicate the order to the worker and have a check on the stock.

Make entries in the system and prepare the bills according to the order's given. Get the bill signed by the proprietor and put official stamp and date.

The product is transported to the costumer through the vehicle of the shop. Payment of transport cost by the clients created a little problem and few refused also. We were able to convince them that it will be paid by them as the price of the product is not hiked.

Then the sales register had to be filled and the copy of invoice has to be filed. Next the confirmation of delivery of goods had to be done over phone. The credit of customer's had to be checked and remind them about their payment which is due from a long duration.

INTRODUCTION

Internship is referred as an program that offers good practical training or any work in the specified time fame. It is offered by private companies as well as the government organizations.

Internship provide students with significant skills and knowledge and motivate them. The student gain both the theoretical and practical knowledge during the training period. There are different course taught under industrial training. I worked for 6 hours daily for 15 days. Once the student successfully complete the internship assessment. The student qualified will be gives a certificate awarding to the training they have obtained.

COCA-COLA

Coca -cola is a carbonated soft drink produced by the coca-cola company of Attanta, Georgia.

The Coca-cola company is an American multinational beverages corporation and marketer of non alcoholic beverages concentrates and syrup.

It is found in 1892.

Coca-cola currently offers more than 500 brands in over 200 countries and serves over 1.7 billions saving each day.

It produces sprite, limca , thumps up, coca-cola, maaza and many more.

COMPANY INTRODUCTION

Narmada drinks private limited is a private in corporate on 26 December 1985. It is classified as non-government company and it registered at Registrar of companies Chhattisgarh. It is located in Parsada sirgitti Industrial Area, Sector B, Bilaspur, Chhattisgarh. It authorised share capital is Rs 50,000,000 and it paid up capital is Rs 18,332,900. It is a food and beverages company of coca-cola brand. In its plant manufacturing of coca-cola product undergoes like kinley water, kinley soda, sprite, fanta, thumsup, limca coca-cola.

Conclusion

This internship has been a great and useful experience for me. I safely say that this helps me to increase my confidence and also increases the understanding of a job Environment It is fascinating to see and work in the Production area of food and beverages making company. In production area, I get to Know that how the machine work and how hygienically and properly workers do their jobs and I also try to do so. Definitely I learn a lot from them and I think it will help me in my future job. The work experience in encountered during the internship allowed me to develop (specific skills). I think i still required to work on my skills. But the over all experience was positive and everything I learned would be useful in my future career.

Introduction

The Coca-cola Company:

- ▶ Coca-Cola, the product that has given the world its best-known taste was born in Atlanta, Georgia, on May 8, 1886. Coca-Cola Company is the world's leading manufacturer, marketer and distributor of non-alcoholic beverage concentrates and syrups, used to produce nearly 400 beverage brands. It sells beverage concentrates and syrups to bottling and canning operators, distributors, fountain retailers and fountain wholesalers. The Company's beverage products comprises of bottled and canned soft drinks as well as concentrates, syrups and not-ready-to-drink powder products. In addition to this, it also produces and markets sports drinks, tea and coffee.
- ▶ The Coca-Cola Company began building its global network in the 1920s. Now operating in more than 200 countries and producing nearly 400 brands, the Coca-Cola system has successfully applied a simple formula on a global scale: "Provide a moment of refreshment for a small amount of money- a billion times a day."
- ▶ The Coca-Cola Company and its network of bottlers comprise the most sophisticated and pervasive production and distribution system in the world. More than anything, that system is dedicated to people working long and hard to sell the products manufactured by the Company. This unique worldwide system has made The

- ▶ **Narmada Drinks Pvt.Ltd (NDPL):**
- ▶ NARMADA DRINKS PVT. LTD.”(NDPL) is a Franchisee of the COCA COLA Company. It is a fairly new unit & was renovated in the year 2000. After renovation it was started in the month of Feb. 2001.The Plant covers an area of 7.5 acres and is situated in the lush green SIRGITTI INDUSTRIAL AREA OF BILASPUR (CHHATTISGARH).
- ▶ NDPL follows The Coca-Cola Management System (KORE) and applicable ISO Standards such as ISO 9001 : 2015 for (QMS), FSSC 2018 Version -5.1 as on date for Food Safety , ISO 14001 :2015 for Environ Management System and Safety Management System ISO 45001 :2018 for the Health and Safety to demonstrate Its Strength.We possess valid certificate for all the above ISO standards as on date.
- ▶ The Manufacturing facility is capable of producing 200ml, 300ml returnable glass bottle packs ,PET bottles of 250ml,300ml,500ml, 600 ml,1.0 LT , 1250ml,1500ml ,2.0Lt 2.25Ltr. packs of all the flavors – Thums Up, Coca-Cola, Fanta Orange, Sprite and Limca. Kinley Soda in the Pack of 500 ml, 600ml & 750ML Pack, Kinley Packaged Drinking Water in 1.0 Ltr & 500 ml Package. The Product portfolio varies depending upon the market requirement.
- ▶ The Plant has 3 manufacturing lines, 750 BPM for 200ml RGB, 550 BPM for 300 ml RGB packages, 160 BPM for PET CSD & 50 BPM Packaged Drinking Water Kinley One Ltr.

- We distribute the products both produced here & outsourced from other Franchisees / Co packers across the country to entire CHHATTISHGARH through our distributor's network.

Process Of Production Of Soft Drinks

Step 1: Water Treatment

Step 2: Syrup Production

Step 3: Bottling Process

1) WATER TREATMENT IN THE SOFT DRINK INDUSTRY:

The individual soft drink plant is a relatively small consumer of water. Yet because of industry needs, the water a plant uses must be of very high quality. To achieve that end, PepsiCo uses Coagulation distillation and other equipment.

THE Soft drink industry is a large Puternational business that uses sizable amounts of material and has sizable investments tied up in equipment. When we talk of gallons of water, pounds of sugar, of bottles purchased, the figures total billions A developed Country might count its plants in the thousands and there are few areas indeed that are so remote, or

Conclusion:

In conclusion, my internship experience in the printing process has been invaluable in enhancing my understanding of the industry. Throughout the internship, I was exposed to various aspects of the printing process, including pre-press, printing, and post-press operations. I gained practical knowledge in operating printing machinery, troubleshooting common issues, and ensuring quality control. Additionally, I learned about the importance of effective communication and teamwork in a fast-paced production environment. This internship has not only deepened my technical skills but also reinforced my passion for the printing industry. I am confident that the knowledge and experiences gained during this internship will greatly benefit my future endeavors in this field.

Conclusion

My teaching internship at **Saraswati Shishu Mandir, Tushar** provided me with a rich and rewarding experience in the field of education. I gained valuable insights into the intricacies of classroom instruction, student management, and effective communication. The hands-on experience deepened my passion for teaching and reaffirmed my commitment to becoming an impactful educator. I am grateful for the guidance and support of my supervising teacher and the entire school community throughout my internship journey. I believe this experience has equipped me with the necessary skills and knowledge to pursue a successful career in teaching.

I would like to express my sincere gratitude to **Saraswati Shishu Mandir, Tushar** for providing me with this internship opportunity and helping me grow both personally and professionally.

Introduction:

I have recently completed a two-month internship at a petrol pump in my hometown. The aim of this report is to reflect on my learning and experience during this internship. Petrol Pump operation is considered one of the most lucrative businesses in India. India is the 2nd largest populated country in the world with more than 135 crore people. The total number of registered vehicles in India is more than 25 crore and every year more than 1 crore vehicles were coming to the roads. India imports 82% of its oil needs and aims to bring that down to 67% by 2022 by replacing it with local exploration, renewable energy, and indigenous ethanol fuel. India was the third top net crude oil (including crude oil products) importer of 205.3 Mt in 2021. India has more than 70 thousand petrol pumps. India is the third-largest consumer of crude oil in the world, after the United States and country China. accounted for 4.81% of total world oil consumption in 2018-19. estimated total consumption of crude oil in India MMT rose in from 160.77 2008-09 to 251.93 MMT in 2017-18 with a CAGR of 4.59%. High-speed diesel oil accounted for 39.3% of the total consumption of all types of petroleum products in 2017-18, followed by petrol .1.6 million barrels of Diesel are used per day in India. 4 million barrels of petrol with a CAGR of 4.59%. High-speed diesel oil accounted for 39.3% of the total consumption of all types of petroleum products in 2017-18, followed by petrol .1.6 million barrels of Diesel are used per day in India. 4 million barrels of petrol per day. One barrel equals 159 liters, now you can imagine the quench of the Indian automobile sector for fuel.

Conclusion:

The Coca-cola Company is currently one of the biggest and most recognized soft beverage brands in the world. With over 300 products in more than 200 Countries, the Coca-Cola company has surely become part of people's lives. The coca-cola company owes Pits success to the people who do their best to achieve the task at hand. Thus, the coca- Cola Company takes cares of Pts employees in return by creating a good a good working environment and working along with unions and government agencies to make sure its employees are safe. The Coca-cola Company understands that in today's business world technology is very! essential to Hun such a big company like Coca-cola. Therefore, the Coca-Cola company uses different type of technology such as Creating databases and data warehouse about their customers and suppliers, doing bussiness with consumers and other businesses through the internet.

The coca-colaS Success isn't something that has been achieved over night. Many years has passed since John pemberton Created the secret formula for Coca-Cola in 1886. Who would have thought that after over a hundred years his creation would have this much impact in the world and twin Coca-cola into a worldwide recognized company.

- Collaboration and Teamwork: Internships provide an opportunity to work in multidisciplinary teams, collaborating with healthcare professionals, researchers, community organizations, and government agencies.

7. Conclusion

This internship has been an excellent and rewarding experience. I can conclude that there have been a lot I've learnt from my work.

My first exposure to professional life through internship has benefited me mostly in strengthening my personal skills. I have developed a positive attitude, and a strong sense of responsibility, being innovative, resourceful, open, and responsive to changes. It has created in me an interest in lifelong learning.

My role is significant in contributing to the prevention and control of the epidemic. Throughout my internship, I shall have the opportunity to engage in various activities that support the program's objectives. By fulfilling my responsibilities, I had made a meaningful impact on HIV/AIDS prevention efforts.

Overall, it was an outstanding experience for me where i was encountered by the positive environment. The experience would be useful for my future.

THANK YOU!

ABSTRACT

Background:

Children of the World (India) Trust, (CWB) is a non-profit, non-political Indian Charitable Trust established in 1982 that aims to work towards the growth, development and progress of children and their families. Children of the World (India) Trust, (CWB) is a non-profit, non-political Indian Charitable Trust established in 1982 that aims to work towards the growth, development and progress of children and their families.

Project Objective and scope:

The objective and scope of the project is to provide educational, health and nutritional service to sponsored children and their families. It provides support to sponsored children and their families through need based community projects. To prevent disintegration of families due to socio economic reasons.

Project Profile:

Our method of doing the work was by completing the task given to us by our mentor. We did different type of task that were assigned to us to get the knowledge about the working of the Ngo. Our task was to gain experience by working in a Non-governmental organization and help the Ngo in best possible way.

Learning experience:

We had wonderful experience while working with volunteers of Children of the word trust as well as working for children. The internship with children of the world trust can be described through some lasting memories that we managed to collect. Our overall experience gave us another angle to look and contribute towards our society.

INTRODUCTION

Children of the World (India) Trust. (CWB) is a non-profit, non-political Indian Charitable Trust established in 1982 that aims to work towards the growth, development and progress of children and their families. It was established in Navi Mumbai (Nerul) in the year 1997. Our rehabilitation program is built on the core belief that every child is a potential resource and not a social liability. Their motto is: Every child deserves a home."

My experience during this internship

This report describes the internship experience in a government school, highlighting the roles, responsibilities, and overall observations during the internship period.

2. Internship Overview:

The internship took place in a government school, where I was assigned various tasks and responsibilities to gain practical experience in the field of education. The primary objective was to support the teachers, interact with students, and contribute to the overall learning environment.

3. Roles and Responsibilities:

During the internship, the following roles and responsibilities were assigned:

- a. Assisting teachers in lesson preparation and classroom management.
- b. Providing one-on-one or small group support to students in various subjects.
- c. Conducting educational activities and interactive sessions to enhance student engagement.
- d. Observing and taking part in teacher-student interactions, classroom discussions, and extracurricular activities.
- e. Assisting in the preparation and administration of assessments and examinations.

4. Observations and Learning:

Throughout the internship, several key observations were made, contributing to a rich learning experience:

- a. Classroom dynamics: Witnessing the diverse teaching methods and strategies employed by experienced teachers helped me understand the importance of differentiation and personalized instruction.
- b. Student engagement: Interacting with students from different backgrounds and abilities highlighted the significance of creating a positive and inclusive learning environment to foster engagement and participation.

c. Challenges and adaptability: Dealing with various classroom challenges, such as behavior management and addressing individual student needs, emphasized the importance of adaptability and flexibility in the teaching profession.

d. Collaboration and teamwork: Working closely with teachers and other education professionals provided insight into the collaborative nature of the education system and the benefits of teamwork in achieving educational goals.

e. Government school context: Observing the resource constraints and unique challenges faced by government schools shed light on the importance of advocacy for adequate funding, infrastructure, and professional development opportunities.

Overall Conclusion

The internship experience in a government school was invaluable in providing practical exposure to the field of education. Through active involvement in classroom activities, assisting teachers, and interacting with students, I gained a deeper understanding of the intricacies and challenges of the educational system.

The experience reinforced the significance of effective teaching methods, personalized instruction, and creating inclusive learning environments. Witnessing the dedication and commitment of teachers in the face of limited resources inspired me to advocate for improved conditions in government schools.

Overall, the internship served as a foundation for my professional growth, enhancing my knowledge, skills, and awareness of the complexities within the education sector. It emphasized the importance of continuous learning, adaptability, and collaboration in providing quality education to all students.

This internship has solidified my passion for education and has motivated me to pursue a career in the field, where I can contribute positively to the development and growth of students in government schools and beyond.

OBJECTIVE OF INTERNSHIP/TRAINING:

- Internships are generally thought of to be reserved for college students looking to gain experience in a particular field. However, a wide array of people can benefit from Training Internships in order to receive real world experience and develop their skills.
- An objective for this position should emphasize the skills you already possess in the area and your interest in learning more.
- Internships are utilized in a number of different career fields, including architecture, engineering, healthcare, economics, advertising and many more
- Some internship is used to allow individuals to perform scientific research while others are specifically designed to allow people to gain first-hand experience working.
- Utilizing internships is a great way to build your resume and develop skills that can be emphasized in your resume for future jobs. When you are applying for a Training Internship, make sure to highlight any special skills or talents that can make you stand apart from the rest of the applicants so that you have an improved chance of landing the position

ABSTRACT

NGO are non-profit making agencies that are constituted with a vision by a group of like responsible and committed people who are able to uplift the condition of poor, marginalized, unprivileged underprivileged and needy people. On-governmental organizations, by virtue of being small in size, flexible, innovative and participatory are widely considered to be more successful in reaching the poor and in poverty alleviation.

Introduction

Ngo or non-governmental organization is an organisation that are generally formed independent from government. They are typically nonprofit entities and many of them are active in humanitarianism or the social science. They can also include clubs and associations that provide services to their members and others. They are concerned for not only social cause but also environmental cause.

Objectives

The primary objectives of the Ngo internship are as follows:

- To focus on all the issues concerning human rights, social, environmental and advocacy.
- They work to promote and improve the social and political conditions of the society on a broad scale.
- They play a critical part in developing society, improving communities and promoting citizen participation.

Working Experience

I am thrilled to apply for an internship position at your esteemed organization. As a passionate advocate for social causes, I am eager to contribute my skills and work towards creating a positive impact in the community. I believe that

SUMMARY

The main objective of this report was to give an overview of the function of the front office team of The Sanskar School Jaijaipur. This report has considered different aspect of The Sanskar School, particularly regarding the function on Sanskar Front Desk. As I was mainly selected as a trainee in the Sanskar School Front desk team which is a part of the front office management so my research topic about the report is "front office operations and service features of the Sanskar School."

Initially I divided the entire report in three parts. In my First part I gave the introduction with the organizational overview which consists of with the School's profile, background, its vision and mission and a brief departmental overview. Second part is the main part where I have explained, institute's principal and purpose, key services and the facilities. Third part is mainly the job responsibilities that I had to do while serving as a trainee in the Sanskar Schhol front Desk.

I gave the whole Idea about the front office operation, how it works, how we organize our task so that every guest leaves with a smile and a pleasant memory.

Objectives

- The major objective was to make sure the students thoroughly understand what has been taught to them. For the same, I made sure I clear and sort all the concepts
- Another major objective of my internship was to be helpful to them as much as I can, for their upcoming examinations. To pledged to hold a good command on the subject, for the benefit of the students and for the sake of my learning.
- To improve English- abilities of the students as well as develop their communication skills
- To make and maintain a flexible teacher-student relationship.
- To make sure to make an impact. To learn while teaching.
- To comfort students enough for them to ask questions and clear doubts.
- To make the whole process of learning 'two-way' and maintain the learning lo

Primary Objectives

The major objective of my whole internship was to act responsible and not to waste time of my students even a bit.

The second major objective was to make sure the students thoroughly understand what has been taught to them. For the same, I made sure I clear and sort all the concepts.

Another prime objective of my internship was to be helpful to them as much as I can, for their upcoming examinations. For that I took following steps: -

- I pledged to hold a good command on the subject, for the benefit of the students and for the sake of my learning.
- Tried to improve English speaking abilities of the students as well as their communication skills.
- Established a flexible and coherent framework which can most readily and quickly meet the needs of students.
- Laid emphasis on cognitive growth and developing self-confidence.
- Made sure everyone followed the organizational instructions.

Secondary Objectives

- To make and maintain a flexible teacher-student relationship.
- To make sure to make an impact.
- To learn while teaching.
- To make it a preparatory class; and not an end to itself.
- To acquire understanding of child psychology.
- To comfort students enough for them to ask questions and clear doubts.
- To make the whole process of learning 'two-way' and maintain the learning loop.
- To make learning in class equated to learning of life.
- To acquire cognitive output from individuals; can be unmeasurable.

Conclusion

In conclusion, this training report on sales operations and management has provided valuable insights into the key aspects of sales operations and the effective management of the sales team. Throughout this training, I have explored various topics, including self-strategy, forecasting, pipeline management, performance tracking, and team leadership.

Sales operations plays a crucial role in driving the success of sales organisation. By implementing strategic sales initiatives, such as defining target markets, setting sales goals, and developing effective sales processes, companies can optimise their sales performance and achieve sustainable growth. Additionally, accurate sales forecasting enables the organisation to make informed business decisions and allocate resources effectively.

Finally, effective sales team leadership is critical for driving motivation, collaboration, and high-performance results. By employing effective leadership techniques, such as setting clear expectations, providing on-going coaching and support, and fostering a positive sales culture, managers can inspire their teams to achieve their full potential.

Overall, this training report has provided a comprehensive overview of sales operations and management, equipping sales professionals and managers with the knowledge and tools necessary to optimise sales performance, drive organisational growth, and achieve long term success In a highly competitive market place.

Dear Sparsh,

This is an internship completion certificate for Mr. Sparsh Thawait, B.Sc(Honour) Mathematics - Guru Ghasidas University, Bilaspur (C.G.).

We state on record that Sparsh Thawait has successfully completed an internship project in the role of Tutor the internship start date was 1st June 2023 and end date was 20th June 2023.

During this period Sparsh worked on various tutoring and mentoring areas and successfully met the objectives that were set at the beginning of the Project. Sparsh shows a lot of promise and skill in his work and we wish him all the best in all his future endeavours.

His contribution in Teaching Under the guidance of Mr. Nilesh Tamboli Sir is highly appreciated.

We wish you all the very best in your career ahead.

With Regards

APOGEE ACADEMY (C.G.)
Mo. 75-6666-2004

ABSTRACT

The authors explore the possible relationship between student satisfaction with offline learning and the theory of psychological contracts. The study incorporates latent trait models using the image analysis procedure and computation of Anderson and Rubin factors scores with contrasts for students who are satisfied, ambivalent, or dissatisfied with their offline learning experiences. The findings identify three underlying satisfaction components: engaged learning, agency, and assessment. The factor score differences in engaged learning and agency, but not assessment. These results lead the authors to hypothesize that predetermined, but unspecified expectations (i.e., psychological contracts) for offline courses by both students and faculty members are important advance organizers for clarifying student satisfaction.

The project report "A STUDY ON STUDENTS SATISFACTION IN APOGEE ACADEMY", is intended to measure the effectiveness of the satisfaction program conducted in the Organization.

To achieve this, a defined objective structured questionnaire based on the preliminary study is prepared. The prepared questionnaire is used to get direct response from the STUDENTS of APOGEE ACADEMY. The response given by the students of APOGEE ACADEMY were analyzed and interpreted using different types of statistical tools like percentage analysis, chi square, t – test. After analysis and interpretation, the study revealed that majority of the respondents have expressed a very positive attitude towards the variables used in the questionnaire to find the effectiveness of training which enabled them to reach their required goal.

Abstract Much recent research and funding have focused on building Internet-based repositories that contain collections of high-quality learning resources, often called 'learning objects.' Yet little is known about how non-specialist users, in particular teachers, find, access, and use digital learning resources. To address this gap, this article describes a case study of mathematics and science teachers' practices and desires surrounding the discovery, selection, and use of digital library resources for instructional purposes. Findings suggest that the teacher participants used a broad range of search strategies in order to find resources that they deemed were age-appropriate, current, and accurate. They intended to include these resources with little modifications into planned instructional activities. The article concludes with a discussion of the implications of the findings for improving the design of educational digital library systems, including tools supporting resource reuse.

How to ensure the quality of online learning in institutions of higher education has been a growing concern during the past several years. While several studies have focused on the perceptions of faculty and administrators, there has been a paucity of research conducted on students' perceptions toward the quality of offline education. This study utilized qualitative methods to investigate the perceptions of students from two universities and one community college regarding the quality of offline education based on their own online learning experiences. Interviews and observations were conducted with three students. Various documents were collected, digital and printed. Positive and negative experiences of students were examined. Factors that contribute to those experiences were also identified.

CHAPTER ONE

INTRODUCTION TO INTERNSHIP

1.1 INTRODUCTION OF INTERNSHIP

An Internship is a trained and supervised experience in a professional setting in which the student is learning and gaining essential experience and expertise. Internship is meant for introducing candidates either full-time or part-time to areal world experience related to their carrier goals and interests.

1.1 OBJECTIVE OF INTERNSHIP

The main objective of the internship course is to facilitate reflection on experiences obtained in the internship and to enhance understanding of academic material by application in the internship

setting. Internships will provide students the opportunity to test their interest in a particular career before permanent commitments are made.

1.2 PERIOD OF INTERNSHIP

The period of my internship for the partial fulfillment of BSc IV semester was 15 days started from 15 June 2023 to 30 June 2023 as front office assistant.

Principal & HEADMASTER
Mother Mary Public School Pihrid
Block-Malkharoda, Distt.-Sakti (C.G.)

About the work

During my internship at Mother Mary Public School, I had the opportunity to work as a teaching intern in a 6th-grade math classroom. In the day 1 of my internship program I interacted with all the students present in the classroom and tried to create an healthy environment between the students. I started with the intro session and started asking about their interest in mathematics subject.

Second day I give the overview of the whole syllabus of the subject and started teaching from the very basic level.

Here are the mathematics syllabus of grade 6 mathematics subject :-

CHAPTER 01 Natural Numbers

CHAPTER 02 Whole Numbers and Operations with the Whole Number

CHAPTER 03 Line Segment

CHAPTER04 Integers

CHAPTER 05 The Circle

CHAPTER06 Factors and Multiples

CHAPTER 07 Fractions

CHAPTER08 Angle

CHAPTER 09 Triangle and Quadrilateral

CHAPTER10 Ratio

CHAPTER 11 Variables

CHAPTER12 Algebraic Expressions

CHAPTER 13 Percentage

CHAPTER14 Equations

CHAPTER 15 Geometrical Constructions

CHAPTER16 Mensuration-1-Area

CHAPTER 17 Mensuration-2-Perimeter

CHAPTER18 Symmetry

Here are some questions that I teach 6th-grade students:-

1. What is the value of 5 squared?
2. Solve the equation: $3x + 7 = 22$.
3. Calculate the area of a rectangle with length 8 cm and width 5 cm.
4. Simplify the expression: $4x + 2x - 3x$.
5. Find the perimeter of a square with a side length of 6 inches.
6. What is the product of 9 and 7?
7. Solve the equation: $\frac{2}{3}x = 8$.
8. Calculate the volume of a cube with side length 4 cm.

Objectives

PRIMARY OBJECTIVES :-

- The major objective of my whole internship was to act responsible and not to waste time of my students even a bit.
- The second major objective was to make sure the students thoroughly understand what has been taught to them. For the same, I made sure I clear and sort all the concepts.
- Another major objective of my internship was to be helpful to them as much as I can, for their upcoming examinations. To pledged to hold a good command on the subject, for the benefit of the students and for the sake of my learning.
- To improve English- abilities of the students as well as develop their communication skills.
- Establishing a flexible and coherent framework which can most readily and quickly meet the needs of students.
- Making sure of self's cognitive growth and developing self-confidence.

DATE :- 03rd June, 2023

TO WHOM IT MAY CONCERN

This is to certify that **Mr. Vishvendra Pratap Singh** student of BSc 4th Semester, Department of Mathematics, Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G.), has successfully completed the 2 weeks Internship from 22nd May, 2023 to 03rd June, 2023 with **Vibhuti Auto & Agro Ambikapur (C.G.)**, he has done internship in Account Management.

He was found sincere, laborious and interested to the task given to him.

Regards
Vibhuti Auto & Agro
Ambikapur

TOPIC LEARNED DURING INTERNSHIP

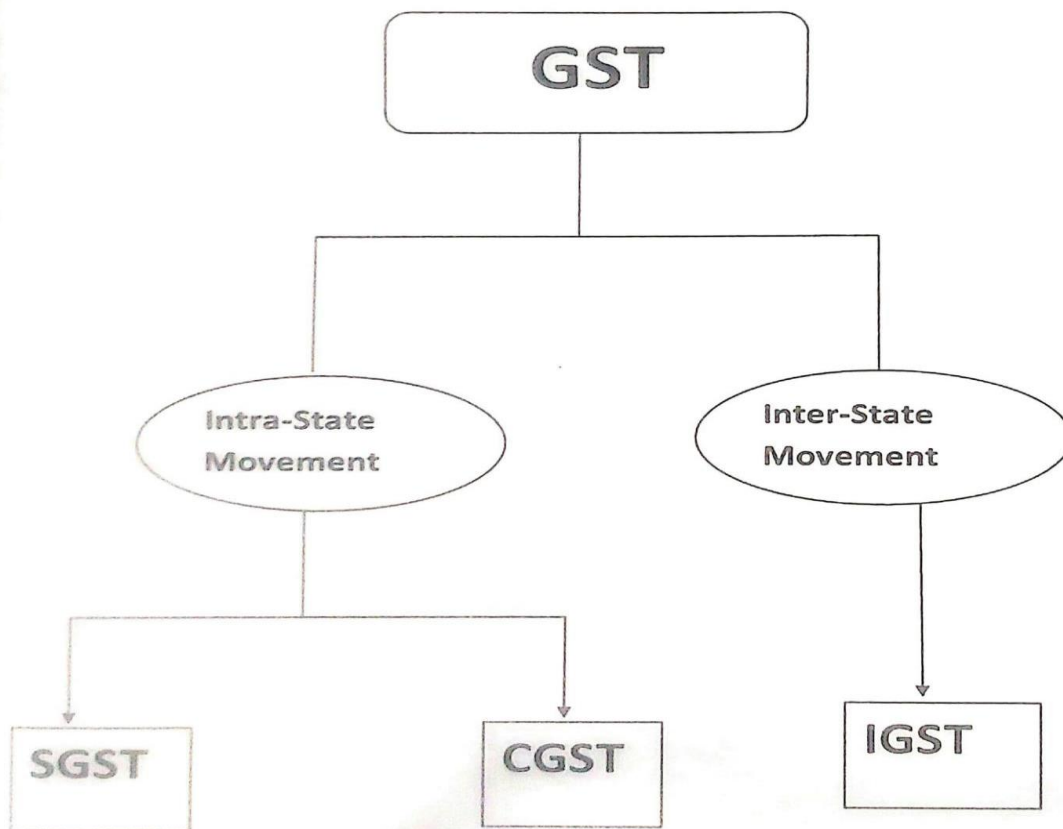

1. **G.S.T (Goods and Services Tax) :-** It is an indirect federal sales tax that is applied to the cost of certain goods and services. The business adds the GST to the price of the product, and a customer who buys the product pays the sales price inclusive of the GST. The GST portion is collected by the business or seller and forwarded to the government. It is also referred to as Value Added Tax (VAT) in some countries. Most countries with a single unified GST system, which means that a single tax rate is applied throughout the country. A country with a unified GST platform merges central taxes (e.g. sales tax, excise duty tax and service tax) with state level taxes (e.g. entertainment tax, entry tax, transfer tax, and luxury tax) and collects them as one single tax. These countries tax virtually everything at a single rate.

As Vibhuti Auto & Agro is having its business in automobile sector for agricultural items, so it also deals with GST in all its sales and purchase which is further mainly divide into three type of GST, that all are:-

- (i) SGST
- (ii) CGST
- (iii) IGST

INTRODUCTION

The Coca-Cola Company, the product that has given the world its best-known taste was born in Atlanta,

Georgia, on May 8, 1886. Coca-Cola Company is the world leading manufacturer, marketer and distributor of non-alcoholic beverage concentrates and syrups used to produce nearly 400

beverage brands. It sells beverage concentrates and syrup to bottling and canning operators, distributors, fountain retailers and fountain wholesalers. The company beverage products

comprises of bottled and canned soft drinks as well as concentrates, syrups and not ready-to-drinks

powder products. In addition to this it also produces and markets sports drinks, tea and coffee.

The Coca-Cola drinks company began building its global network in the 1920s. Now operating in more

than 200 countries and producing nearly 400 brands, the Coca-Cola system has successfully

applied a simple formula on a global scale: "provide a moment of refreshment for a small amount of money a billion times a day"

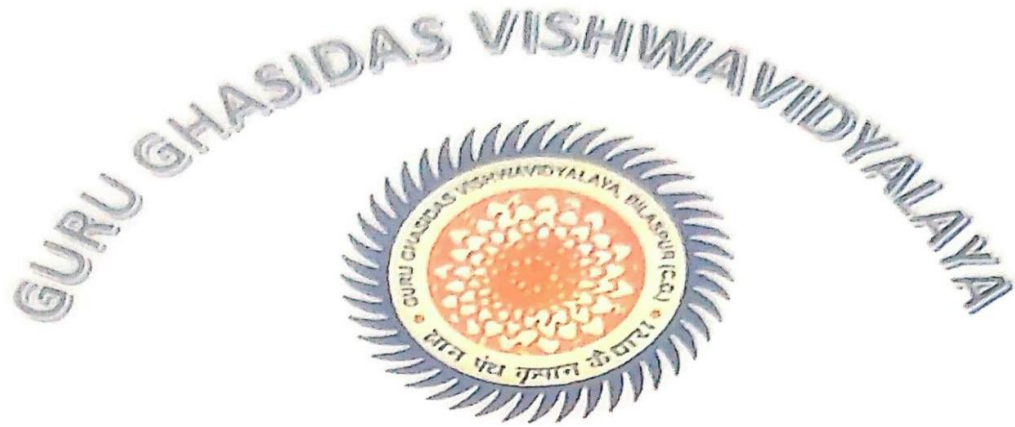

The Coca-Cola company and its network of bottlers comprises the most sophisticated

Pervasive production and distribution system in the world more than anything. That system is dedicated to people working long and hard to sell the products manufactured by the company.

The unique worldwide system has made the Coca-Cola company the world's premier soft drink enterprise. From Boston to Beijing from Montreal to Moscow, Coca-Cola more than any other consumer product has brought pleasure to thirsty consumers around the globe. For more than 115 years, Coca-Cola has created a special moment of pleasure for hundreds of millions of people every day.

The company aims at increasing share owner value over time. It accomplishes this by working with its business partners to deliver satisfaction and value to consumers through a worldwide system of superior brands and services, thus increasing brand equity on a global basis.

gained insights into the functioning of the telephone exchange in railways. I learned about the setup and configuration of the exchange, call routing protocols, and troubleshooting techniques. Additionally, I observed how the telephone exchange integrates with other communication systems to ensure seamless communication across different departments.

2. INTERNSHIP OBJECTIVES

Objective 1: Learn About Railway Safety and Regulations

Safety is a critical aspect of railway operations. During my internship, I intend to familiarize myself with the safety protocols and regulations followed by the East Coast Railways. I aim to observe safety inspections, understand emergency response procedures, and learn how the railway authorities ensure the well-being of passengers and employees. This knowledge will contribute to my understanding of safety management in a railway environment.

Objective 2: Enhance Knowledge of Railway Systems and Technologies

The railway industry is constantly evolving with the introduction of new technologies and systems. During my internship, I aim to familiarize myself with the various railway systems and technologies employed by the East Coast Railways. This includes learning about modern signaling systems, train control mechanisms, and maintenance techniques. By staying updated on the latest advancements, I can contribute to the implementation of efficient and sustainable railway systems in the future.

Objective 3: Gain an Overview of Organizational Structure and Culture

Understanding the organizational structure and culture of an institution is vital for professional integration. During my internship, I aim to familiarize myself with the East Coast Railways' organizational structure, hierarchies, and operational processes. By immersing myself in the work environment and observing the interactions between different teams, I hope to gain an understanding of the company's culture and values. This knowledge will aid in my future professional engagements.

By setting these objectives, I aspire to make the most of my 4-week internship with the East Coast Railways, India. I am confident that this experience will provide me with valuable insights into the railway industry and contribute to my personal and professional growth.

3. Unreserved Ticketing System

3.1 System Overview:

The Unreserved Ticketing System (UTS) is an essential part of the Indian Railways ticketing infrastructure, catering to the needs of millions of passengers traveling without a reserved seat.
