

A Webinar on “CAE in Automotive

12. Dec.2020, Bilaspur As the disruption in the conventional educational system prevails, it has led to a lot of stress and confusion in the minds of students regarding their careers. In such situations, various webinars that are conducted by the institutions give them a direction and help the students discover their potential on the fields which are generally looked over by a typical curriculum.

Such a webinar was organized by the Department of Mechanical Engineering in Guru Ghasidas Vishwavidyalaya (Central University), Bilaspur. It was organized by Dr. Prof T. V. Arjunan, Dean (SoS, E&T) and Mr. Bhushan Singh Gautam, Asst. Professor (ME) & conducted by students Megha Pathak (5th Sem.) and Diksh Gupta (3rd Sem).

The chief speaker of the webinar was Mr. K. Bigil Kumar. He is the Technical Director at Coimbatore based engineering and R&D company, Altran and has over twenty-one years of experience in the field of Automotive Industry. Altran would soon be a part of the French MNC, Capgemini.

The session was held in the online meeting platform, Google Meet. More than eighty students and faculty members who had registered for the webinar, were informed about the application of Computer Aided Engineering (CAE) in automotive industry, to determine the safety and performance parameters of different parts of an Automobile. Many queries were asked by the participants and were made clear by the speaker Mr. Kumar. The session lasted for a duration of one and half hour and an active participation from students as well as faculty members was observed.
