

A REPORT ON
“Farewell Function”

B.Tech Batch 2018-22
Jan 02th May, 2022

Dates:- 02/05/2022

Timing-10:30 AM to 12:00 PM

Venue:-G-14 Smart Class Room

Department of Mechanical Engineering,
School of Studies of Engineering and
Technology

For :-

B.Tech ***Batch 2018-22*** of Department of Mechanical
Engineering

Administrator and convener:-Prof. T.V. Arjunan, *Dean, School of Studies Engineering & Technology Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G)*

Coordinator: Mr. Manish Bhaskar (Assistant Professor/Class In Charge B.Tech 4th Year, Dept of Mechanical Engineering)

Event Description:

The Department of Mechanical Engineering, School of Studies of Engineering and Technology has successfully organized formal *Farewell Function for B.Tech Batch 2018-22 of Department of Mechanical Engineering* dated *May 02th, 2022* at time 10:30 AM to 12:00 PM All the activities associated with function were coordinated by Manish Bhaskar (Assistant Professor/Class In Charge B.Tech 4th Year, Dept of Mechanical Engineering) Programme Started with welcome address by Mr. Manish Bhaskar. Further Prof. T V Arjunan, Dean SoS Engineering & Technology & HOD Department of Mechanical Engineering, Guru Ghasidas Vishwavidyalaya had given speech for motivation and guidance to all passing out Students. All the departmental faculties also given their blessings to the students for bright future. Students given their feedback about the institute and share

Their valuable experience and journey of four year 2018-22. Function was concluded with Vote of thanks by Mr. Manish Bhaskar (Assistant Professor, Department of Mechanical Engineering).

Feedback from the Students:-

Name of the Student: - Ms. Megha Pathak

Course : - B.Tech Mechanical Engineering

Batch : - 2018-2022

*I am **Megha Pathak**, a final year mechanical engineering student of GGU In the four years that I have spent in the college, I have grown so much because I always learnt new things, be it related to engineering or a totally different field, the environment offers so much to learn. Many events are regularly organized keeping technological advancements in mind. In some events I was also a part of the organizing team that helped me to gain first-hand experience at managing events and a direct guidance from the teachers. Everyone in the department have always been very supportive and understanding. The requests of students are always taken care of. Initially, the online learning was difficult to grasp, yet, the department was very quick to adapt and deliver the best learning experience online by the use of jam board, google classroom, virtual labs, etc. These four years are going to be the most memorable year of my life and the biggest thanks goes to all the teachers, seniors, classmates, and the juniors I met here and learned so much from.*

Megha Pathak

Name of the Student: - Mr. L Bhargav

Course : - B.Tech Mechanical Engineering

Batch : - 2018-2022

I am L Bhargav, a final year mechanical engineering student of GGU. I hailed from Visakhapatnam, Andhra Pradesh. I joined the university in 2018. At the time of admission, I had a fear of language as I was not familiar with Hindi language and thought that I need to struggle a lot to cop up in this college. Surprisingly, due to the god's grace, I haven't felt any trouble in these four years because the faculty of mechanical engineering are very helpful with a kind heart and friendly with students while dealing with the problems of students in both academic and non-academics. In addition to that, my classmates are also very supportive. They never distinguished me on language basis and made me feel comfortable and supported me in all aspects throughout my BTech journey. Moreover, the faculty of mechanical engineering are very enthusiastic in developing the infrastructure and making the students expose to the real-life engineering problems. I am very thankful to everyone and feel great to be a part of mechanical engineering, GGU.

Name of the Student: - Mr. Vishal Pandey

Course : - B.Tech Mechanical Engineering

Batch: - 2018-2022

*I am **Vishal Pandey**, a final-year mechanical engineering student at GGU. My four years of engineering experience were incredible. I can still remember how it felt to be a fresher at the institute, passionate about Mechanical Engineering, and with lots of dreams. In those days, we used to complain a lot about infrastructure, and lab facilities, but soon after we got in touch with our teachers, our complaint attitude changed. They told us how one can change things even if they don't have resources. They groomed us, nurtured us. I heard somewhere that a good chef is not someone who can cook well, but the one who can cook well with limited resources. Now, on my visits to the University campus, I have seen new department buildings, instruments, and lab equipment. Now that I have seen all this, I can say that the next generation of engineering undergraduates trained here will be unequalled*

A handwritten signature in black ink that reads "Vishal Pandey" with a small flourish at the end.
