### **student Mentoring Activity for the academic year 2019-20**

I took the responsibility of mentoring the B.A fifth class. I suggested the students that first they should concentrate on their B.A programme before indulging in their career options. After successful completion of their graduation, they should start their career plans. Apart from their academic life, I also encouraged them to go for some extra activities too depending on their interests. I tried to know about their psychological problems and gave emotional support when they needed it. I tried to inculcate positive attitude of life among the students.
