

LIFE SCIENCE SKILL DEVELOPMENT TRAINING WORKSHOP

on

Entrepreneur development in Herbal drug Industry

(Characterization Formulation & Analysis)

20-22 October, 2016

Organized by

Skill Development Cell & School of Life Science

GURU GHASIDAS VISHWAVIDYALAYA,

Bilaspur (Chhattisgarh), India.

Background

The workshop will cover practical aspects of herbal drug analysis which include preparation of samples, selection of method of analysis, application of proper method of analysis, interpretation of analytical data, nature of phyto-constituents, application of spectral methods of analysis, etc. The candidates will be exposed to hands on experience on Organoleptic, macroscopically, Microscopically, TLC, Spectrophotometer, GLC, HPLC and other related technique etc.

This is an intensive 3 day program strategically designed to provide participants with a comprehensive overview of core start-up carrier issues related to the sciences and herbal industries. If the students have ever dreamed of creating own carrier in herbal medicine field that program may be useful for that students.

Objectives of the Workshop

1. The main purpose of the workshop is to understand the complexity of herbal drugs analysis and to find out the appropriate and scientific solution for the same.
2. This will help the ayurvedic/Herbal /botanical and pharmaceutical Industry to grow faster and gain more recognition worldwide.
3. It will also help candidates to master the art of analyzing and understanding the complex structure of the ayurvedic/ herbal drugs.
4. It will also help candidates to master the art of formulation of different herbal formulation and to visit the herbal industry for entrepreneurship development.
