### NOTIFICATION

Our university is committed to reaching the Net Zero emission target by 2030. Following are the steps and initiatives taken by the university in this direction. The base year is taken as 2009.

1. Transition to Renewable Energy Sources. We are producing energy from Renewable Sources like roof-top solar power generation and biogas plants.
2. The University has installed solar power standalone LED lights at 72 locations in the campus and all the street lights are LED lights. The University is committed to reducing its energy consumption by adopting various initiatives in addition to the above like use of the latest Technology based energy efficient applications and equipment and installation of more solar power LED lights.
3. The university is spreading the green cover through tree plantations and proper management of water use and reuse, along with the existing water bodies.
4. The university is committed to achieving the net zero emission targets by minimizing different types of waste, recycling, and reusing wherever applicable.
5. The university promotes battery operated transportation and use of bicycles. Further, the university encourages pedestrian movement by providing Pedestrian Friendly Pathways.
6. The University has taken initiative for construction of all new building structures with at least 3- Star GRIHA rating. Presently, the eight on-going building construction projects are targeted for 3-Star rating.
