Manorama Singh

Dr. Manorama, Department of Chemistry, GGV (A Central University), Bilaspur, C. G., India has completed her Ph. D. in Chemistry from Banaras Hindu University, Varanasi, India. She has published several papers and book chapters in different international and national journals/books of high repute. Her research interests are largely based in electroanalytical chemistry, modified electrodes, electro-/organic catalysis and sensors.

Vijai K. Rai

Dr. Vijai K. Rai, Department of Chemistry, GGV (A Central University), Bilaspur C. G., India has completed his Ph. D. in Chemistry from University of Allahabad, Allahabad, India. He has been the recipient of several awards viz. Golden Jubilee Award, NASI, India, D. S. Bhakuni Award, ICS etc., and has published several papers and book chapters in different international journals/books of high repute. His main research area is development of green synthetic routes for new organic molecules using homogeneous and heterogeneous catalysts.

Ankita Rai

Dr. Ankita Rai, Department of Chemistry, School of Physical Sciences, JNU, New Delhi, India has completed her Ph. D. from University of Allahabad, Allahabad, India. She has published several papers and book chapters in different international journals/books of high repute. Her research interests are in synthetic organic chemistry especially environment-friendly organic transformations by developing new synthetic methodologies and new catalytic routes.
