ABSTRACT

Spiritual intelligence (SI) or Spiritual Quotient (SQ) is that intelligence or ability which is required when we begin our spirit's journey and to quest for a greater understanding of life. We seek for higher purpose and a greater sense of self, and in this way develop a better understanding of the world. The full picture of human intelligence cannot be realized without the concept of Spiritual Intelligence, i.e., intelligence required to solve problems of meaning and values and to assess one's life path. It is strongly believed that human beings are essentially spiritual beings because we are driven by some fundamental and ultimate questions such as, "Why was I born?, What is the meaning and purpose of my life?, From where have I come?, Where do I go?, etc.". SI helps us to solve all this fundamental questions. People with high SI show better leadership qualities and it also helps in maintaining good mental health. This paper tries to conceptualize Spiritual Intelligence and find out its
