**FORWARDING CERTIFICATE**

This is to certify that **Mr. Altamash Khan S/o Mr. Kadir Ahemad Khan** is a student of M.Pharm. IV semester in Department of Pharmacy (GGV) has submitted his project report entitled "**Phytochemical Investigation, Anti-oxidant and Anti-Cancer Activity Studies on Stem Bark of Plant *Hymenodictyon orixense***" for the partial fulfilment of the requirement for the Degree of **Master of Pharmacy (Pharmacognosy)** at Department of Pharmacy, GGV Bilaspur (C.G.). He has completed his project work under the supervision of **Prof. Vinod D. Rangari**.

I hereby forward his project report in M. Pharm (Pharmacognosy) during the academic session 2020-2022.

**DECLARATION**

I hereby declare that the project report entitled "**Phytochemical Investigation, Anti-Oxidant and Anti-Cancer Activity Studies on Stem Bark of Plant *Hymenodictyon orixense***" was done by me. The entire work was done with the guidance and suggestion received from my supervisor **Prof. Vinod D. Rangari** at Department of Pharmacy, GGV, Bilaspur (C.G.). The same is submitted to Guru Ghasidas Vishwavidyalaya Bilaspur for the partial fulfillment of the requirement for the degree of **Master of Pharmacy (Pharmacognosy)**.

## ACKNOWLEDGEMENT

I humbly and whole heartedly bow my head before Lord Almighty for blessing me all his grace to successfully complete my studies and research endeavour at Guru Ghasidas University.

It is a great pleasure to acknowledge my deepest thanks and gratitude to everyone who supported me throughout the course of thesis work. I wish to extend my sincere and heartfelt obligation to work all the personages who have helped me in this endeavor. Without their active guidance, help, cooperation and encouragement, I would not have been possible without your constant support.

By the grace of Almighty, I take this opportunity to express my deep sense of gratitude to my supervisor Prof. Vinod D. Rangari, Pharmacognosy faculty, Department of Pharmacy, Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G.) for providing me excellent guidance, motivation, encouragement and care throughout my research work. It would not have been possible without your friendly suggestions and constant support throughout this research work.

I am also thankful to Dr. Bharti Ahirwar, Head, Department of Pharmacy, Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G) for providing me the required facilities and also their timely words of advice, despite of their busy schedule.

I am also thankful to Dr. Vivekananda Mandal, Dr. Arjun Patra and Dr. Neeli Rose Beck Pharmacognosy faculties for their constant efforts and support throughout my project work and post-graduation as well.

I am also thankful to Dr. Harish Rajak (In charge FT-IR) for allowing me to utilize the facility of FT-IR in the department.

I would like to thank Dr. Ashwini Kumar Dixit from Department of Botany Guru Ghasidas Vishwavidyalaya for providing the authentication certificate of plant and for his valuable help and advices.

I am also thankful to Prof. Debasish Bandyopadhyay Oxidative Stress and Free Radical Biology Laboratory Department of Physiology University of Calcutta 92, APC Road, Kolkata for allowing to carry out our experiments in their department and research scholars Adrita Banarjee, Romit Majumder, Tiyasa Dey, Priyanka Ghosh for their supportive attitude and useful help and advices.

I am also thankful to Dr. Roshan M Borkar Department of Pharmaceutical Analysis National Institute of Pharmaceutical Education and Research (NIPER)-Guwahati Assam for his valuable help and advice for carrying out LC- MS studies of my sample.

I would also like to thank Dr. Nirmal Kumar, Scientific Officer, Anti-cancer drug screening facility, Advanced Centre for Treatment, Research & Education in Cancer, Tata Memorial Centre. Kharghar, Navi Mumbai for carrying out anticancer studies of my samples and for their supportive attitude.

I would like to thank Anchrom Enterprises India Pvt. Ltd. for carrying out the HPTLC studies of my samples and for their supportive attitude.

I would like to thanks all the non-teaching staff Mr. Muralidhar Gupta, Mr. Devi Prasad Miri, Mr. Rajesh Kumar Rathore, Mr. Rajesh Kumar Keshkar, Mr. Virendra Kumar Verma, Mrs. Veena Vaishnav and Mr. Nityanand Singh of the department for their contribution and assistance.

I wish to acknowledge my seniors Mr. Kavi Bhushan Chouhan, Mr. Souvik Mukherjee, Mr. Balaji Wamanrao Matore, Mr. Bhupendra Dixena, Ms. Nirupama Rani Dewangan, Ms. Varsha Yadav and Ms. Ekta Shirbhate for their unconditional help and support.

Friends are like gift of God. I feel fortunate to have such dear friends who have helped me in the hour of need. Thank you, Alap Pande, Monika Ray, Prachi Agrawal, Monika Chandrakar, Dalchand, Ashwani Jangade, Priyanka Sahu, Pragya Gupta, Sunil Sahu and Rakesh Kore who contributed in some or other way for the success of this research work.

But above all, I feel short of words to express thanks to my beloved Ammi, Abbu, who sacrificed their needs for me and it wouldn't be possible without their praying and blessings. Their constant support, unconditional love and care have brought me to this stage. I am very happy to express my special appreciation and thanks to my big brother Mr. Ahsan Khan for their constant support in the long hour of working which were always easier with his encouragement and cooperation.

Sincerely thanks to all.

Altamash Khan

Chapter 1	1.1 Introduction	1-2
	1.2 Phyto-chemicals as a drug	2-3
	1.3 Extraction and various extraction	3-5
	1.4 Medicinal plant as anticancer	5-7
	1.5 Anticancer agents	7-8
Chapter 2	2.1 Literature review	9-10
	2.2 Taxonomic hierarchy of the genus	11-12
	2.3 Morphology of the plant	13-14
	2.4 Chemical review	15-17
	2.5 Biological activities and medicinal	17-20
	2.6 References	21-22
Chapter 3	3. Aim and objective	23-24
Chapter 4	4.1 Collection and identification of plant material	25
	4.2 Preparation of plant material and	26
	4.2.1 Preparation of plant material	26
	4.2.2 Preparation of plant extracts	27-28
	4.3 Phytochemical Screening	29
	4.3.1 Test for alkaloids	30-31
	4.3.2 Test for flavonoids	31
	4.3.3 Test for saponins	31
	4.3.4 Test for tannins	31
	4.3.5 Test for quinones	32
	4.3.6 Test for carbohydrates	32
	4.4 HPTLC profiling of the extracts	33-34
	4.4.1 Sample preparation	34
	4.4.2 Developing chamber	34
	4.4.3 Detection of spots	34
	4.4.4 Derivatization of plates	35
	4.4.5 Data collection	35

## Table of Contents

Chapter No	Particulars	Page Number
	List of Tables	i
	List of Figures	ii- iv
<b>Chapter 1</b>	1.Introduction	01
	1.1 Use of phytochemicals as a drug	01- 03
	1.2 Extraction and various extraction processes	04- 05
	1.3 Use of medicinal plant as anticancer and antioxidant agents	05-16
	References	17- 20
<b>Chapter 2</b>	2. Literature review	21
	2.1 Plant profile	21- 22
	2.2 Taxonomic hierarchy of the genus <i>Hymenodictyon</i>	22
	2.3 Morphology of the plant	22- 24
	2.4 Phytochemical Review	25- 27
	2.5 Biological activities and medicinal importance	27- 30
	References	31- 33
<b>Chapter 3</b>	3. Aim and objective	34- 35
<b>Chapter 4</b>	4.1 Collection and identification of plant material	36
	4.2 Preparation of plant material and extraction of the material	36
	4.2.1 Preparation of plant material	36
	4.2.2 Preparation of plant extracts	37- 40
	4.3 Phytochemical Screening	40
	4.3.1 Test for alkaloids	40- 41
	4.3.2 Test for flavonoids	41
	4.3.3 Test for saponins	41
	4.3.4 Test for tannins	41
	4.3.5 Test for quinones	42
	4.3.6 Test for carbohydrates	42
	4.4 HPTLC profiling of the extracts	42- 45
	4.4.1 Sample preparation	45
	4.4.2 Developing chamber	45
	4.4.3 Detection of spots	45
	4.4.4 Derivatization of plates	46
	4.4.5 Data collection	46

	4.5 Isolation of phytoconstituents	46
	4.5.1 Preparation of different fractions	46- 47
	4.5.2 TLC studies of obtained studies	48- 50
	4.5.3 Column chromatography of fractions	50- 53
	4.5.4 UV spectroscopy	53- 54
	4.5.5 Fourier- Transform Infrared Spectroscopy (FT-IR)	54
	4.5.6 LC-MS Hyphenated Technique	54- 55
	References	56- 57
<b>Chapter 5</b>	5.1 Procurement of drug	58
	5.2 Extraction of plant material	59
	5.3 Phytochemical screening of extracts	59- 60
	5.4 HPTLC profiling of extracts	60- 67
	5.5 Isolation of phytoconstituents	67- 68
	5.5.1 Preparation of different fractions	68- 69
	5.5.2 TLC studies of obtained fractions	69- 72
	5.6 Physiochemical characters of isolated compounds	72
	5.6.1 Compound Codes	72
	5.6.2 Percentage yield of isolated compounds	72
	5.6.3 Color of isolated compounds	72- 73
	5.6.4 TLC profiling of isolated compounds	73- 74
	5.6.5 UV spectroscopy of isolated compounds	74- 76
	5.6.6 Infrared Spectroscopy of Isolated Compounds	76- 77
	5.6.7 LC- MS analysis of isolated compounds	78- 86
	References	87
<b>Chapter 6</b>	6.0 Bioassay of extracts	88
	6.1 Antioxidant activity studies	88- 97
	6.2 Anticancer activity studies	98- 101
	References	102
<b>Chapter 7</b>	7.1 Summary	103- 106
	7.2 Conclusion	107
<b>Annexure</b>
