

Economic empowerment is the capacity of women and men to participate in, contribute to and benefit from growth processes in ways that recognise the value of their contributions, respect their dignity and make it possible to negotiate a fairer distribution of the benefits of growth. The objective of the book is to provide the platform for students, Researchers, Academicians to share the knowledge and ideas in the recent trends in the field of commerce & management, information technology, social science & others. This book will provide an excellent sharing of knowledge which will provide a platform to the researchers & academicians from both the areas i.e. academia as well as industry to meet the share cutting-edge development in the field of education. Another goal is to promote substantial economic information interchange between professional, developers, students, researchers and academicians working in and around the world.
