**DEPARTMENT OF PHARMACY,
GURU GHASIDAS VISHWAVIDYALAYA
(A CENTRAL UNIVERSITY),
BILASPUR (C.G.)**

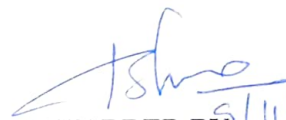

**DEPARTMENT OF PHARMACY,
GURU GHASIDAS VISHWAVIDYALAYA,
BILASPUR (C.G.)**

(A Central University Established by the Central University Act-2009 No. 25 of 2009)

Tel. No. 07752-260027; Fax No. 07752-260148

This is to certify that **Miss Kamal Bareth D/o MR. Laxmi Prasad Bareth** is a student of M. Pharm. 4TH semester in the Department of Pharmacy, Guru Ghasidas Vishwavidyalaya, Bilaspur has submitted her project entitled "**Phytochemical and Biological Evaluation of *Thelypteris dentata*: a Medicinal Plant in Chhattisgarh State**" for the partial fulfillment of the requirement for the Degree of **Master of Pharmacy (Pharmaceutical Chemistry)**. She has submitted her project under the supervision of **Dr. DilipKumar Pal (Associate Professor in pharmaceutical chemistry)**. Her work is Original, Satisfactory and is not submitted anywhere else for the award of any degree.

I hereby forward her project work in M. Pharm (Pharmaceutical Chemistry) during the academic session 2020-2022.

FORWARDED BY 

Dr. BHARTI AHIRWAR
Head of Department

Department of Pharmacy,

GGV Bilaspur (C.G.)

DECLARATION

I hereby declare that the Project entitled "**Phytochemical and Biological Evaluation of *Thelypteris dentata*: a Medicinal Plant in Chhattisgarh State**" was done by me and the entire work was carried out under the guidance and suggestions received from my supervisor **Dr. Dilipkumar Pal** (Associate Professor in Pharmaceutical Chemistry) Department of Pharmacy, Guru Ghasidas Vishwavidyalaya (A Central University), Bilaspur (C.G.) for the partial fulfillment of the requirement for the Degree of **Master of Pharmacy (Pharmaceutical Chemistry)**.

I further declare that I have not submitted this thesis previously for the award of any degree or diploma anywhere else.

Kamal Bareth

ACKNOWLEDGEMENT

Throughout the process of writing this dissertation, I received a lot of help and support. I'd like to express my gratitude to those individuals without whom I would not have been able to accomplish my research or complete my master's degree. First and foremost, I want to thank the Lord "Almighty God" for providing wisdom, strength, tolerance, and knowledge in investigating things, for guiding us in overcoming all of the challenges we faced and for making this research possible.

I would like to express my sincere gratitude to my supervisor, **Dr. Dilipkumar Pal**, Associate Professor (Pharmaceutical Chemistry), Department of Pharmacy, Guru Ghasidas Vishwavidyalaya (A Central University), Bilaspur (C.G.), a person of enormous knowledge and polite behavior. she has been supportive from the first day I started working with him; her motivation, direction, and overall insights into this area have made this an inspiring experience for me. I cannot express my feelings in words about how she encouraged and helped me during my project work. He continuously gave his valuable guidance and remained with me despite his hectic schedule. Her dedication, devotion, and behavior have given permanent imprints on my heart.

I am highly gratified to **Guru Ghasidas Vishwavidyalaya** for approving me to undertake my research work and ensuring all necessary facilities and guidance. I would fully acknowledge **Dr. Bharti Ahirwar** Head of the Department of Pharmacy, Guru Ghasidas Vishwavidyalaya for her inspiring guidance, and for providing the essential facilities that enabled me to complete my project.

I thank all other faculties for their unwavering inspiration, valuable encouragement, and unwavering optimism in helping me finish my thesis. All of the department's faculty members have provided me with inspiration, assistance, and proposals that are inexhaustible.

This has been a lovely experience at the Department of Pharmacy, Guru Ghasidas Vishwavidyalaya, Bilaspur, at which teaching and non-teaching staff have always been inclined to assist whenever required. I'd also want to convey my gratefulness to our laboratory and library staff, who has given me a wonderful working atmosphere and diligent support throughout the research.

I finally owe my gratitude to my loving parents, **Mr. Laxmi Prasad Bareth** and **Mrs. Vilma** for their wonderful gestures and unconditional support, which have enriched my life with love and joy. "Making you both pleased and proud when it comes to my name" is a personal achievement for me.

I extremely thankful my friends Padum Lal, Rakesh Kore, Sunil Sahu, and my seniors Udit Malik, Khushboo Raj for their support to complete my project.

I would like to express my extreme thanks to my other batch mates and friends who contributed in some or another way to the success of this research work, allowing me to attain this milestone in my life's journey.

INDEX

Contents

S. No	Title	Page no.
Chapter 1: Introduction		1-15
1.1	Plant medicine	2
1.2	History	3
1.3	Phytoconstituents present in herbal medicine	3
1.4	Indian traditional medicinal system	3-9
1.5	Type of herbal medicine	9-10
1.6	Reproducibility of herbal ingredients	10
1.7	Herbal medicine standardization	11
1.8	Advantages of herbal medicine	11
1.9	Role of who in herbal	12
1.10	Current and future status of herbal medicines	13
	References	14-15
Chapter 2: Plant Profile		16-21
2.1	Plant Name	17
2.2	Geographical Distribution	18
2.3	Botanical Description	18-19
2.4	Chemical Constituents	20
2.5	Uses	20
	References	21
Chapter 3: Literature Review		22-26
	References	26

Chapter 4: Aims and Objective		28-29
Chapter 5: Plan of Work		30-32
Chapter 6: Collection, Authentication, Extraction, Qualitative analysis, isolation, and characterization of <i>Thelypteris dentata</i>		33-74
6.1	Collection of Herb	34
6.2	Identification and Authentication of Collected Plant	34
6.3	Washing and Shade Drying	34-35
6.4	Grinding and Sieving	35-36
6.5	Extraction Procedure	36-37
6.5.1	Soxhlet Extraction	37-39
6.5.2	Parameters for Selecting an Appropriate Extraction Method	39
6.6	Isolation and Characterization of Ethanol Extract of <i>T.dentata</i>	41
6.6.1	General Concept of Chromatography	41
6.6.2	Thin Layer Chromatography	42
6.6.3	Procedure for Thin Layer Chromatography	42-43
6.6.4	Selection of Solvent for TLC	43
6.6.5	Preparative Thin Layer Chromatography	44
6.6.6	Isolated and Elucidation of preparative TLC Compound	45-48
6.7	Colum chromatography	49-52
6.8	Phytochemical screening	53
6.8.1	Detection of Alkaloids	53
6.8.2	Detection of tannins	53
6.8.3	Detection of Phenols	54
6.8.4	Detection of Flavonoids	54
6.8.5	Detection of Saponins	54
6.8.6	Detection of phytosterols	54
6.8.7	Detection of glycoside	54
6.8.8	Detection of coumarins	55
6.8.9	Detection of Reducing sugar	55

6.8.10	Detection of Terpenoids	55
6.8.11	Detection of Triterpenoides	55
6.9	Phytochemical Screening of <i>T.dentata</i>	55-57
6.10	Result	58
6.11	Solvent System Developed by TLC for Ethanol extract of <i>T. lobata</i>	59
6.12	Isolation of Compound by Preparative TLC	60
6.13	Characterisation of Isolated Compounds	61-70
	References	71
Chapter 7: Antimicrobial Property Studies		72-80
7.1	Introduction	72-73
7.2	Experimental methodology	74
7.2.1	Growth condition	74
7.2.2	Minimum inhibitory concentration	75
7.2.3	Determination of mic	75
7.2.4	Determination of MBC	75
7.2.5	Determination of MFC	75-76
7.2.6	Zone of inhibition (in mm)	77
7.3	Results and Discussion	78
7.3.1	Antibacterial Activity	78
	References	79-80
Chapter 8: Antioxidant Studies		81-88
8.1	Introduction	81-82
8.2	Experimental Methodology	82
8.2.1	Scavenging Activity of DPPH Radical	83-84
8.2.2	In vitro non-enzymatic glycosylation of Hemoglobin	85-86
8.3	Results and Discussion	87
	References	88

List of Figures

FIG. No.	TITLE	Page No.
1.1	Types of Herbal Medicines	9
2.1	Complete plant of <i>Thelpteris dentata</i>	19
2.2	Young sori of <i>T. dentata</i>	21
2.3	Root Part of <i>T. dentata</i>	21
5.1	Plan of Work	32
6.1	<i>Thelpteris dentata</i> extraction through Soxhlet apparatus	38
6.2	Soxhlet Apparatus	38
6.3	Developing chamber of TLC	42
6.4	Preparative TLC set up	44
6.5	Isolation and Elucidation Compounds	46
6.6	Preparative TLC	48
6.7	Column chromatography	50
6.8	Image of <i>Thelpteris dentata</i> extracts (1. Petroleum Ether extract, 2. Ethanolic extract, 3. Aqueous Extract)	56
6.9	Solvent system developed by TLC for Ethanol Extract of <i>T. dentata</i>	60
6.10	UV Spectral Data of Isolated Compound	62-65
6.11	IR Data of Isolated Compound	63
6.11.1	IR Data Peaks of Isolated Compound 1	63
6.11.2	IR Data Peaks of Isolated Compound 2	64
6.11.3	IR Data Peaks of Isolated Compound 3	65
7.1	Zone of inhibition in <i>S. aureus</i> and <i>E. Coli</i>	77
